Welcome Address from the Congress President of the XXIX International Congress of Psychology

Dear Colleagues and Friends,

It is both my privilege and my pleasure to invite you to the XXIX International Congress of Psychology 2008 (ICP 2008). ICP 2008 will be hosted by the German Federation of Psychologists’ Associations, under the auspices of the International Union of Psychological Science (IUPsyS), and will take place in the exciting city of Berlin.

Because the major purpose of the congress is to present an outstanding scientific program, the Scientific Committee of ICP 2008, along with the IUPsyS national member societies, has selected world renowned scientists from all fields of psychology and from many different countries as invited speakers and symposia conveners. I am very pleased to say that by far most of the scientists we contacted were eager to come to Berlin.

ICP 2008 offers a truly exquisite scientific program that will include more than 75 invited addresses with speakers from 44 countries and more than 160 invited symposia with conveners from over 60 countries. In addition to symposia, thematic oral sessions, and interactive poster sessions, we introduce a new format in Berlin that we hope will stimulate discussion during the meeting. Controversial debates will focus on topics that are both inherently important and interesting to all of us as psychologists. The debates will take place at prominent time slots and will be moderated by some of the best psychological scientists in the world.

Berlin is ideally suited to provide an atmosphere of true international spirit as the city has learned to deal successfully with the diversities of systems and the coexistence of different cultures. Today, the German capital is a modern, lively, vibrant, fascinating city in the center of Europe with historic, cultural, scientific, and modern achievements, a city you will enjoy to visit. The scientific Berlin comprises 17 universities and colleges and 70 non-university research institutes where more than 40,000 scientists and 140,000 students work and study.

The XXIX International Congress of Psychology will be an event that covers the whole of psychology in an exciting social environment, that extends our knowledge, improves on our practice, and widens our friendship networks. This will be the main psychological meeting in the year 2008. We do hope that you will make it a priority to attend.

Come and enjoy!

Professor Peter A. Frensch
Congress President, ICP 2008
Welcome Address from the President of the International Union of Psychological Science (IUPsyS)

Dear Colleagues,

The International Congress of Psychology comes only once in a quadrennium. Thus, it presents a very special opportunity for face-to-face exchanges of information on the state of psychology, basic and applied. It is my delight to welcome you to the XXIX International Congress of Psychology hosted by our German colleagues in the marvelous city of Berlin. Our hosts have been working diligently for some years to make this event a seminal one in our professional lives, and by all indicators they have succeeded. Here you will have access to the best in contemporary psychology from around the world. Your work presented here will reach thousands of scholars from nearly a hundred countries. You will also be able to participate in new Congress features such as “Controversial Debates”.

When the International Union of Psychological Science accepted Germany’s offer to host our XXIX International Congress of Psychology, the Union was cognizant that we would be coming back to the land of Stumpf, Wundt, Hering, Weber, Fechner, Ebbinghaus, and other pioneers in psychology. This rich tradition in psychological science has endured to the present day. The Union’s selection was made in hopes that such a return to the roots of scientific psychology would afford us special opportunities for renewing ourselves and our discipline.

As President of the International Union of Psychological Science, I want to take this opportunity to express the Union’s deep and sincere thanks to Congress President Professor Dr. Peter Frensch and his dedicated team of colleagues who have worked so hard to bring this Congress to fruition. Professor Frensch and his committee chairpersons have been marvelous leaders for the Congress, persisting through many challenges. Without them and their many colleagues, there would be no Congress. I hold high expectations for this Congress, and I invite you to join in the Congress with gusto. Come, and both learn and teach. And, also enjoy the rich cultural environment that Berlin offers to you. This is a special event not to be missed.

Warmly,

Professor J. Bruce Overmier
President, IUPsyS
Welcome Address from the Chair of the German Federation of Psychologists’ Associations 2008

Dear Colleagues,

The German Federation of Psychologists’ Associations feels honored to host the XXIX International Congress of Psychology 2008 in Germany (ICP 2008) under the auspices of the International Union of Psychological Science (IUPsyS).

There has been a long tradition of psychological science in Germany for more than 130 years as well as a short but impressive history of psychological practice after the Second World War.

To increase the international perspective again and to support the networking of scientists and professionals, the German Federation of Psychologists’ Associations was founded by the Deutsche Gesellschaft für Psychologie (DGPs) and the Berufsverband Deutscher Psychologen (BDP) in 1959.

More than 50,000 colleagues are representing science and the profession in various fields. A subgroup of 27,000 colleagues is regulated by law and works in the field of psychotherapy.

For the third time, the International Congress of Psychology takes place in Germany. Many outstanding international researchers and teachers of psychology were invited to exchange latest research findings and models of teaching and practicing psychology with more than 8,000 participants from more than 100 countries.

It is my pleasure to thank Bruce Overmier as President of the IUPsyS for the advice and support the Union has given to the Congress Organizers.

I am grateful to the Congress President, Peter Frensch, and colleagues in the committees for making the ICP 2008 such a big success and an attractive meeting point for the community of psychology in 2008.

Welcome! Bienvenue! Willkommen!

Performance of puppet play

**Paula and the Chest Kobolds** *(Paula und die Kistenkobolde)*

performed by the renowned puppet theater “Augsburger Puppenkiste” (in German language)

**Tuesday, 22 July 2008**

10.00–10.45h  11.15–12.00h  14.45–15.30h

*Main Lobby ICC Berlin*

Introduced by Prof. Dr. Herbert Scheithauer, Freie Universität Berlin, and Heidrun Mayer, beta Institut Augsburg

The puppet play is part of the prevention program Papilio (www.papilio.de). Papilio is a developmentally focused program for preventing early-onset behavioural disorders and enhancing social-emotional competence in preschoolers. Paula and the four kobolds, each representing one of the basic emotions (sadness, anger, fear, and happiness), help preschool children to identify and express different emotions as well as emotional control to foster their emotional competences. The play is performed by the puppet theater “Augsburger Puppenkiste”.

www.puppenkiste.com

Based on empirical evidence the play is a good example for the implementation of knowledge from Applied Developmental Psychology to the field. Papilio has been developed and evaluated by beta Institut Augsburg and Freie Universität Berlin.
INTRODUCTION
The scientific program of ICP 2008 contains more than 9,000 contributions. There will be many parallel sessions and the schedule is quite ambitious. To help you design your personal schedule for ICP 2008, we give you a short overview of the different presentation formats. The general time schedule of ICP 2008 will be the same for all days. There are 15 minute-breaks between the larger time slots.

FORMATS
Awards
■ Mattei Dogan Prize
The Mattei Dogan Foundation Prize in Psychological Science was established in 2006 by the International Union of Psychological Science (IUPsyS) under the generous auspices of the Mattei Dogan Foundation. The Prize is awarded in recognition of a contribution that represents a major advancement in psychology by a scholar or a team of scholars of high international reputation. The Prize is awarded for the first time on the occasion of the XXIX International Congress of Psychology, Berlin, July 2008.

The IUPsyS is proud to announce that the Mattei Dogan Prize is awarded this year to Professor Michael I. Posner, from the University of Oregon. Professor Posner’s work connecting psychological science to neuroscience and the study of the human brain marked a significant breakthrough in the study of attention, consciousness, memory, and information processing. His research has combined behavioural experimental paradigms and their brain, genetic, and developmental foundations to make major empirical, methodological, and theoretical contributions to the field of psychology.

■ Paul-B.-Baltes Lecture
The annual Paul-B.-Baltes Lecture is a major event in German psychology. The speaker of the Paul-B.-Baltes Lecture is selected by all five psychology departments in Berlin and Potsdam (Freie Universität, Humboldt-Universität, Technische Universität, Universität Potsdam, and Max-Planck-Institute for Human Development), and honors the late Paul B. Baltes, director at the Max-Planck-Institute for Human Development in Berlin, a pioneer and worldwide leader in lifespan psychology and research on human aging.

The content of the lecture is not confined to the field of human development as may be deduced by the name of Paul B. Baltes; rather, it is the explicit goal to select an exceptionally prominent scholar in any area of psychology. In 2008, the Paul-B.-Baltes Lecture is presented as a specially featured event at the XXIX International Congress of Psychology.

The 2008 Paul-B.-Baltes Lecture is presented by Prof. Michael I. Posner, University of Oregon. His lecture is entitled “Executive attention: Its origins, development, and functions”.

You are cordially invited to attend this unique event on Tuesday, 22 July, 10.15–11.15h, hall 3.

Invited Contributions
The selection procedure for invited contributions was based on nominations by all IUPsyS national members. From this list of nominees the Scientific Committee of ICP 2008 selected approximately 100 colleagues for Invited Addresses and approximately 200 colleagues as chairs of Invited Symposia.

■ Invited Address
An Invited Address is a lecture scheduled for 60 minutes. The speakers will focus on either an overview of their area of expertise or latest developments in their field. All Invited Addresses will have a chair to introduce the speaker and moderate a short discussion or select questions from the audience. The daily time slots for Invited Addresses are 10.15–11.15h, 13.45–14.45h and 15.00–16.30h.

The president of the International Union of Psychological Science, J. Bruce Overmier, will give his Presidential Address on Monday, 21 July, 10.15–11.15h in hall 3.
**Invited Symposium**

Colleagues who have been invited to chair a symposium were asked to gather a group of speakers and discussants for a lively exchange on the state of research and future challenges in a specific field. An Invited Symposium lasts 120 minutes. The daily time slots for Invited Symposia are 08.00–10.00 h, 11.30–13.30 h and 16.45–18.45 h.

In addition to regular Invited Symposia the International Union of Psychological Science provided for 12 **IUPsys Invited Symposia**. They also last 120 minutes and will be held in the time slots 08.00–10.00 h, 11.30–13.30 h and 16.45–18.45 h.

**Controversial Debate**

Controversial Debates are a new presentation format that we introduce in Berlin, and that we hope will stimulate discussion during the congress. Controversial Debates will focus on topics that are both inherently important and interesting to all psychologists. For more details on the five debates selected for ICP 2008 please see pages 400 and 401.

**Submitted Contribution**

Participants were invited to submit abstracts for the following presentation formats. All submitted abstracts were reviewed by the Scientific Committee.

**Symposium**

Submitted symposia have a minimum of six participants and were submitted by the respective chair(s). The chairs were asked to invite participants from more than one country if possible. The daily time slots for symposia are 08.00–10.00 h, 11.30–13.30 h, and 16.45–18.45 h.

**Oral Presentation**

Participants could also submit individual oral contributions. The submitted abstracts for oral presentations were reviewed by the Scientific Committee and then grouped into thematic sessions. One or two of the respective participants were selected to chair the session. The number of individual oral contributions within these paper sessions varies depending on the time slot for presentation. Paper sessions are scheduled for all daily time slots.

**Poster and Rapid Communication Poster**

There will be two poster sessions per day. All posters will be exhibited in hall 2 of the ICC Berlin. The morning poster session starts at 09.00 h and ends at 12.00 h. The afternoon poster session is scheduled from 14.00 h to 17.00 h. There will be no afternoon session on Friday, 25 July. Posters exhibited simultaneously are grouped into thematic sessions based on the ICP 2008 topic list.

**Pre-Congress Workshop**

On **Sunday, 20 July, 13.00–17.00 h**, pre-congress workshops will be held at the congress venue. These workshops cover a wide range of topics. The pre-congress workshops are not included in the registration fee. A separate registration is necessary. Registrations for pre-congress workshops will be accepted on a first-come, first-served basis. The maximum number of participants for pre-congress workshops is limited. However, some pre-congress workshops are still available. Please check at the congress counter for further information. For more details see page 404.

**BDP Workshops for Professionals (in German Language)**

In order to provide an opportunity for professionals whose working language is German, the Association of German Professional Psychologists (BDP) offers a special workshop program on **Monday, 21 July, 16.00 h**. The topics range from clinical over school psychology to psychotherapy. The organizers have applied for the accreditation of credit points through the Chambers of Psychotherapists.

The BDP workshop program is not included in the registration fee. A separate registration is necessary.Registrations for the workshops will be accepted on a first-come, first-served basis. The maximum number of participants for the BDP workshop program is limited. However, some workshops are still available. Please check at the congress counter for further information. For more details see page 406.
**SCIENCE FOUNDATIONS**

**Deutsche Forschungsgemeinschaft**  
**Monday, 21 July 2008**  
**11.30 – 12.30 h, Hall 2.1**

Research Funding in Psychology: How the Deutsche Forschungsgemeinschaft (DFG) promotes young researchers and internationality.  

The Deutsche Forschungsgemeinschaft (German Research Foundation) is the central, self-governing research funding organisation that promotes research at universities and other publicly financed research institutions in Germany. In 2007 DFG has spent more than 25 Million Euros for research in psychology.

The short presentation (in German) will give an overview of DFG’s funding schemes with a specific focus on programs for young researchers and international collaboration. It will also touch on DFG’s decision making procedures and bodies. Additional time should be reserved for a questions and answers session. Members of the Review Board in psychology will be present to comment on preparation of applications for funding and review criteria.

**Alexander von Humboldt-Foundation**  
**Monday, 21 July 2008**  
**12.30 – 13.30 h, Hall 2.1**

The Alexander von Humboldt-Foundation promotes academic cooperation between excellent scientists and scholars from abroad and in Germany. Every year, the Foundation sponsors approximately 1.800 long-term research stays in Germany and abroad. To this end, it grants up to 800 fellowships and more than 100 awards annually and sponsors further research stays by its alumni. Research fellowships and research awards offer sponsorship tailored to individual needs and career situations. The Humboldt network embraces approximately 23.000 scientists and scholars from all disciplines in more than 30 countries, including 40 Nobel Prize Winners.

In this short presentation, an overview of the Foundation’s programs addressing to postdocs, established scientists and internationally recognised cutting-edge researchers will be provided. There will be the opportunity to discuss how one can profit from the programs as a scientific host in Germany. A first impression of the programs is available on the internet: www.humboldt-foundation.de/de/programme/programmueberblick.htm. The help desk will answer questions in advance: info@avh.de.

After the presentation all attendees and all Humboldtstands staying at the ICP 2008 are invited for further discussions and some drinks during an informal cocktail reception.

**EFPSA Round Table Discussion**  
(for both students and professionals)  
**EFPSA: Who are we and what do we offer to both students and professional organizations?**  
**Wednesday, 23 July 2008**  
**13.45 – 14.45 h, Salon 20**

The European Federation of Psychology Students’ Associations (EFPSA – http://www.efpsa.org) wishes to invite both students and professionals to our round table discussion. We propose to start with a short introduction of EFPSA and then continue to talk about what we offer, or what we could offer in future, to both students and professionals, and their organizations.

During the round table discussion we would like to take a further look at possibilities for a closer cooperation and discuss other topics that are of interest to the participants. Many EFPSA members are working on closer cooperation with their professional counterparts. For students it is a good way to get in contact with professionals and gain a closer insight into the profession, as well as a good opportunity to represent their colleagues. The professional organization can gain insight into the opinions of students, who are the future psychologists, and they can cooperate with students on organizing events, while benefiting from the fresh ideas and enthusiasm of student groups. Both can learn from each other and working together can improve the stability of both.

With this round table we aim to share experiences, look at possible difficulties, and we are looking forward to hearing some fresh ideas.
**Important Information for Speakers**

**Speakers Center**
The speakers center is located at the end of the entrance hall of the ICC Berlin. Speakers are asked to hand in their CD-ROM or USB stick, containing the presentation (IBM format or compatible, no multisession) preferably one day before their presentation but at the latest 3 hours prior to the presentation.

The presentation will be transferred to the central congress server and will be available afterwards on a special congress notebook in the hall of the presentation. Due to time and technical reasons we kindly ask the speakers not to use their own notebook.

Videos (VHS or DVD) need to be handed in at the speakers center preferably one day before the presentation but at the latest 3 hours prior to the presentation.

In the speakers center there are several PC working stations where speakers can also work on their PC charts in a quiet area. Technical staff will be glad to assist.

**Poster Exhibition**

Posters are displayed from Monday, 21 July through Friday, 25 July 2008 in hall 2 of the ICC Berlin. The posters are changed twice a day (except for Friday) and are at display between 09.00 h and 12.00 h (morning session) and between 14.00 h and 17.00 h (afternoon session).

The presenting author should be at the poster wall during the poster session.

The authors of the posters are asked to put up their poster on the particular congress day between 08.00 h and 09.00 h (morning session) or between 13.00 h and 14.00 h (afternoon session) and to remove the poster between 12.00 h and 13.00 h (morning session) or between 17.00 h and 18.00 h (afternoon session) on the day of presentation. Posters that have not been removed by 13.00 h/18.00 h will be disposed off.

A poster information desk will be installed in the poster exhibition.

What is the cognitive basis of impairments in congenital prosopagnosia?
Carbon, Claus-Christian (Austria)

Emotional expression modulates perceived gaze direction
Lobmaier, Janek (United Kingdom)

The role of global and local information in face processing
Schwaninger, Adrian (Switzerland)

Identity verification from photographs in travel documents: The role of expertise, race and inversion
Chiller-Glaus, Sarah (Switzerland)

Characteristic dynamic information for facial expression recognition
Cunningham, Douglas (Germany)

Adaptation effects: Where do they lead us to?
Ditye, Thomas (Austria)

Event-related potentials of face recognition: Geometric distortions and the N250r brain response to stimulus repetitions
Bindemann, Markus (United Kingdom)
Discussant: Schwaninger, Adrian (Switzerland)

S-030 Symposium
08.00 – 10.00 h Room 29
Same-sex marriage and legalized relationships: An international perspective
Chair: Rothblum, Esther (USA)

Same-sex marriage and legalized relationships in the United States: I do, or do I?
Rothblum, Esther (USA)
### S-031 Symposium

**08.00 – 10.00 h**

**Room 30**

**Self-regulated learning with multimedia**

Co-Chair: Opfermann, Maria (Germany)
Co-Chair: Wirth, Joachim (Germany)

The interaction between hypotheses formulation and experimental design in self-regulated scientific discovery learning

Wirth, Joachim (Germany)

Learning with hypermedia: Impact of epistemological beliefs on metacognitive processes

Porsch, Torsten (Germany)

Supporting self-regulated learning in hypermedia environments

Opfermann, Maria (Germany)

Internalizing vs. externalizing interface elements: How to induce engagement, planning and learning

van Nimwegen, Christof (Belgium)

Using pedagogical agents to support self-regulated learning

Domagk, Steffi (Germany)

Discussant: Bruenken, Roland (Germany)

### S-032 Symposium

**08.00 – 10.00 h**

**Room 33**

Extending principles of couple interactions to specific populations

Chair: Heinrichs, Nina (Germany)

Body image and sexual functioning among women with early stage breast cancer: The impact of a couple-based intervention program

Baucom, Donald H. (USA)

Fear of progression in partners of women with breast cancer

Zimmermann, Tanja (Germany)

Treating affair couples: An integrative approach to resolving trauma and promoting forgiveness

Snyder, Douglas K. (USA)

PREP inside and out: Marriage education as an intervention for prisoner reintegration

Promoting a positive transition to parenthood: The effect of couple care for parents on the couple relationship and parenting

Halford, Kim (Australia)

Discussant: Christensen, Andrew (USA)

### S-033 Symposium

**08.00 – 10.00 h**

**Room 34**

Words and feelings: Emotions across languages and cultures

Co-Chair: Fontaine, Johnny (Belgium)
Co-Chair: Scherer, Klaus R. (Switzerland)

The power of emotion words: Cultural definitions of feelings and task masters of emotion theories

Scherer, Klaus R. (Switzerland)

A cluster analysis approach for the analysis of emotion lexicon: The case of Basque as compared to other languages

Alonso Arbiol, Itziar (Spain)

The GRID approach: An empirical approach to identify the meaning of emotion words across cultural groups

Fontaine, Johnny (Belgium)

Where do emotional dialects come from? A comparison of the understanding of emotion terms between Gabon and Quebec

Hess, Ursula (Canada)

Exploring words, tastes and feelings in Chinese: The natural semantic

Ye, Zhengdao (Australia)

Discussant: Ortony, Andrew (USA)

### FP-001 Paper Session

**08.00 – 10.00 h**

**Room 43**

Self-concept, self-determination, and motivation to learn

Co-Chair: Marsh, Herbert (United Kingdom)
Co-Chair: Brunner, Martin (Luxembourg)

I Stream: The effects of educational streaming system on self-concept and motivation: A qualitative study with Singaporean secondary school students

Manzano, Anne Adelaine (Singapore)

**Room 34**

**Working memory II**  
Co-Chair: Fiebach, Christian (Germany)  
Co-Chair: Münzer, Stefan (Germany)

**Working memory and the language system: fMRI evidence for a procedural model of verbal working memory**  
Fiebach, Christian (Germany)

**The neural signature of multi-item working memory**  
Axmacher, Nikolai (Germany)

**Effects of shape similarity in short-term visual recognition**  
Mate, Judit (Spain)

**Links between working memory and episodic memory in a virtual environment**  
Plancher, Gaen (France)

**Working memory declined by normal aging: What kind of tasks are the most damaged by this process?**  
Rodriguez, Raquel (Spain)

**Spatial learning with navigation assistance**  
Münzer, Stefan (Germany)

### FP-163 Paper Session

**16.45 – 18.45 h**  
**Room 35**

**Memory processes IV**  
Co-Chair: Meo, Maria (Italy)  
Co-Chair: Chambaron, Stephanie (Belgium)

**Influence of response-stimulus interval (RSI) on sequence learning**  
Chambaron, Stephanie (Belgium)

**The emergence of awareness during learning**  
Rose, Michael (Germany)

**Examining the strategy hypothesis: On the functional relation between explicit knowledge and implicit visuomotor adaptation**  
Hegele, Mathias (Germany)

**Context-sensitive adjustments of cognitive control: Conflict-adaptation effects are modulated by processing demands of the ongoing task**  
Fischer, Rico (Germany)
Autobiographical memory and self of Chinese college students
Wang, Qiaohong (People’s Republic of China)

Transfer and rule based learning problem solving
Meo, Maria (Italy)

FP-164 Paper Session
16.45 – 18.45 h Room 36
Mental health and counseling II
Co-Chair: Verma, Jyoti (India)

Exploring emotional sensitivity in borderline personality disorder and healthy controls using facial affect paradigm
Lynch, Thomas (United Kingdom)

Facial emotional expressions and behavioral intentions as reactions to social exclusion in borderline personality disorder
Renneberg, Babette (Germany)

Emotional reactivity to auditory stimuli in borderline personality disorder
Rosenthal, M. Zachary (USA)

Impulsivity and emotion dysregulation in borderline personality disorder
Chapman, Alexander (Canada)
Discussant: Renneberg, Babette (Germany)

**S-231 Symposium**
16.45 – 18.45 h  Salon 20
Advancements in leadership theory and practice
Chair: Rowold, Jens (Germany)

Nomological network of leadership constructs: Results from a multi-sample study
Rowold, Jens (Germany)

Psychometric properties of a scale for the assessment of ethical leadership
Staufenbiel, Kathrin (Germany)

Leadership and innovative behavior in organizations: An empirical investigation on transformational leadership, leader-member exchange and delegation
Nerdinger, Friedemann (Germany)
Transformational leadership training and its effect on follower perception of transformational leadership and value congruency and leaders perception of commitment and proactivity
Radstaak, Jens (Germany)

Effects of transformational leadership training and coaching on follower perception of transformational leadership, commitment and organizational citizenship behavior
Mönninghoff, Martina (Germany)

Transformational leadership and social competence
Torjus, Nicole (Germany)

S-232 Symposium
16.45 – 18.45 h Salon 21
Self-regulation: Key factor in health behavior change?
Co-Chair: Gutiérrez-Doña, Benicio (Costa Rica)
Co-Chair: Wiedemann, Amelie (Germany)

Specifying self-regulation intervention techniques in the context of healthy eating
Abraham, Charles (United Kingdom)

Self-regulation and psychological interventions for rheumatoid arthritis: A meta-analysis
Maes, Stan (Netherlands)

Stress management, self-regulation and adaptation to breast cancer
Carver, Charles S. (USA)

Effects of self-regulation on healthy dietary behavior and physical activity tested in a randomized controlled trial
Wiedemann, Amelie (Germany)

From intentions to actions: Self-efficacy and self-regulation in the adoption and maintenance of health behaviors in Costa Ricans and Germans
Gutiérrez-Doña, Benicio (Costa Rica)

Discussant: Sheeran, Paschal (United Kingdom)

S-233 Symposium
16.45 – 18.45 h Salon 22
Multidisciplinary models to the study of resilience today's societies
Chair: Javier, Rafael (USA)

A view of resilience in the Latino context
Camacho-Gingerich, Alina (USA)

Developing a culturally sensitive measure of resilience
Clauss-Ehlers, Caroline (USA)

On the myth of trauma and resilience
Lewis, Jeffrey (USA)

A look at proactive factors of children exposed to violence
Mora, Louis (USA)

Discussant: Javier, Rafael (USA)

S-234 Symposium
16.45 – 18.45 h Room 23
Individual and organisational variables of career related continuous learning
Co-Chair: Schaper, Niclas (Germany)
Co-Chair: Hochholdinger, Sabine (Germany)

The role of individual characteristics in self organized learning activities
Mann, Jacqueline (Germany)

Prediction of individual e-learning success by organisational learning culture and individual transfer motivation
Hochholdinger, Sabine (Germany)

Organisational learning culture and it’s effects on continuous learning motivation and behavior
Schaper, Niclas (Germany)

Transfer of training as citizenship performance
Solga, Marc (Germany)

Learning from mistakes and innovation
Putz, Daniel (Germany)

S-235 Symposium
16.45 – 18.45 h Room 24
Assessment centers: Organizational practices, individual differences correlates and influencing factors on construct validity
Co-Chair: Melchers, Klaus G. (Switzerland)
Co-Chair: Kleinmann, Martin (Switzerland)

State of the art of assessment centres: Survey results from Austria, Canada, France, Germany, Netherlands, Sweden, Switzerland, and U.S.A.
Krause, Diana (Canada)

Adequate problem perception: A passport to successful assessment center performance?
Andreßen, Panja (Germany)

Predictor interactions in determining assessment center performance
Dilchert, Stephan (USA)
Self-assessor congruence in an assessment center for personnel selection
Höfft, Stefan (Germany)

Do assessors have too much on their plates? Measurement quality and the number of to-be-observed candidates in an assessment center group exercise
Melchers, Klaus G. (Switzerland)

The effects of exercise instructions on the observability of assessment center behavior
Schollaert, Eveline (Belgium)

Future expectation and subjective wellbeing across adulthood
Lang, Frieder R. (Germany)

Using the German socio-economic panel study to assess age-related changes in life satisfaction
Lucas, Richard E. (USA)

It’s time!: Psychologists can and should start unraveling age, period and cohort effects in studying temporal change
Denissen, Jaap (Germany)

Relations among parental economic strain, supportive parenting and adolescents’ future orientation
Agache, Alexandru (Germany)

Decomposing trust: Explaining national trust differences
Naef, Michael (Switzerland)

Validating a test of general reasoning ability adequate for the inclusion in SOEP
Schneider, Michael (Switzerland)

Examining the home literacy model of reading development in Greek
Manolitsis, George (Greece)

Antecedents of reading in a transparent orthography (Finnish)
Leppänen, Ulla (Finland)

Gender ratio and cognitive profile in dyslexia: A cross-national study
Jiménez, Juan E. (Spain)

A local model to teach phonetic sensitivity in Dutch
van der Kooy-Hofland, Verna (Netherlands)

A longitudinal appraisal of the development of passage comprehension in Greek
Papadopoulos, Timothy (Cyprus)

Movement coordination in human-human interaction
Schuboe, Anna (Germany)

Recognition and prediction of pedestrian intentions from a moving vehicle
Schmidt, Sabrina (Germany)

Handing over: Anticipation in joint action
Glasafer, Stefan (Germany)

Emotion in human-robot interaction: Recognition and display
Wendt, Cornelia (Germany)

Modeling user stress in a cognitive architecture
Neumann, Hendrik (Germany)

Examining the home literacy model of reading development in Greek
Manolitsis, George (Greece)

Antecedents of reading in a transparent orthography (Finnish)
Leppänen, Ulla (Finland)

Gender ratio and cognitive profile in dyslexia: A cross-national study
Jiménez, Juan E. (Spain)

A local model to teach phonetic sensitivity in Dutch
van der Kooy-Hofland, Verna (Netherlands)

A longitudinal appraisal of the development of passage comprehension in Greek
Papadopoulos, Timothy (Cyprus)

Discussant: Padakannaya, Prakash (India)

Traffic psychological assessment – Bridging the gap between theory and practice
Schuhfried, Gernot (Austria)

The role of cognitive performance testing in the assessment of driving aptitude
Brenner-Hartmann, Jürgen (Germany)

Predictive validity of the expert system traffic in healthy adults
Häusler, Joachim (Austria)
Predicting fitness to drive after traumatic brain injury or stroke  
Schauer, Susanne (Germany)

Conditional driving license for elderly drivers  
Dorfer, Max (Italy)

Compensational effects regarding the fitness to drive of handicapped drivers in adapted vehicles  
Grüneis-Pacher, Edith (Austria)

Computerized cognitive training: Theory and possible applicability in traffic psychology  
Sturm, Walter (Germany)

Supporting learning processes in museums with personalised labels  
Mayr, Eva (Germany)

Supporting situational interest and knowledge exchange with mobile media  
Wessel, Daniel (Germany)

Evaluating a learning-by-design approach in a technology museum  
Reimann, Peter (Australia)

Do reconstructions influence familiarity and dating of past ages? A preliminary study  
Glaser, Manuela (Germany)

Learning science at museums: A media terminal as scaffold for critical thinking and opinion formation about nanotechnology  
Knipfer, Kristin (Germany)  
Discussant: Schwan, Stephan (Germany)

Evaluating user interface effects on situation awareness within the Mission to Means Framework (MMF) approach  
Bassan, David (USA)

Improving synthesized Chinese speech alarm design in emergency evacuation: Quantifying and predicting effects of different parameters on perceived urgency, intelligibility and impact on behavior  
Li, Huiyang (People’s Republic of China)

Earcon blood pressure displays: Comparisons between auditory and visual BP display usability in an operating theatre context  
Spring, Peter (Australia)

Discourse analyses of a computer-mediated trust study  
Qu, Weina (People’s Republic of China)

How to improve human performance technology?  
Burov, Oleksandr (Ukraine)

S-240 Symposium  
16.45 – 18.45 h Room 29  
Informal learning in museums with media: Perspectives from cognitive, media and educational psychology  
Co-Chair: Mayr, Eva (Germany)  
Co-Chair: Wessel, Daniel (Germany)

FP-350 Paper Session  
16.45 – 18.45 h Room 31  
Human resource practices  
Co-Chair: Yavuz, Serap (United Kingdom)  
Co-Chair: Chen, Zhixia (People’s Republic of China)

Sustainable human capital management in Swiss companies  
Eberhardt, Daniela (Switzerland)

Relationship between human resources practices and performance: Mediating effect of job insecurity, organizational support and job satisfaction  
Latorre, M. Felisa (Spain)

Are ‘Hybrid’ HRM practices really good for local employees in developing countries?  
Yavuz, Serap (United Kingdom)

The mediate effect of multidimensional perceived organizational support and job satisfaction in the relationship of supportive human resource practices and Chinese employees’ job performance  
Chen, Zhixia (People’s Republic of China)

Human resource management practices in family business: Reflexes of psychological contract?  
Casimiro, Mafalda (Portugal)
FP-351 Paper Session
16.45 – 18.45 h Room 32
Behavior genetics
Co-Chair: Roubertoux, Pierre (France)
Co-Chair: Alfimova, Margarita (Russia)

Serotonin transporter gene: Brain-derived neurotrophic factor gene interaction and signs of depression and anxiety in parents of psychotic patients
Alfimova, Margarita (Russia)

Gene environment interaction for COMT on emotional processing
Herrmann, Martin (Germany)

Stress-related negative affectivity and genetically altered 5-HTT function: Evidence for synergism in shaping risk for depression
Jacobs, Nele (Netherlands)

Cognitive-behavioral profiles of children with subtelomeric deletions
Roubertoux, Pierre (France)

Etiology of motivation in elementary school children: Self-perceived ability and fear of failure
Spengler, Marion (Germany)

FP-352 Paper Session
16.45 – 18.45 h Room 33
Judgement and decision making
Chair: Hommers, Wilfried (Germany)

Illusory correlation: Distinct events or distinct baserates?
Vogel, Tobias (Germany)

Motivated perception: Evidence for a positivity bias in early perceptional processes
Voss, Andreas (Germany)

Situational familiarity and the use of nonverbal and verbal information in judgments of veracity
Reinhard, Marc-Andre (Germany)

Duplex-response: Punishment and repunishment in contrast to univariate judgments
Hommers, Wilfried (Germany)

FP-353 Paper Session
16.45 – 18.45 h Room 34
Attitudes and attitude change
Co-Chair: Zhou, Jie (People’s Republic of China)
Co-Chair: Walther, Eva (Germany)

Implicit verb causality influences attitude transference effects
Walther, Eva (Germany)

The effects of attitudinal structural consistency on attitude, intention, behavior and their relationships
Zhou, Jie (People’s Republic of China)

Study on the assertive behavior, locus of control and subjective well-being of Bulgarians using internet
Georgieva, Svetoslava (Bulgaria)

A qualitative study of the attitude towards social market economy in Germany: Justice aspects and the comparison with alternative economic systems
Kaminski, Simone (Germany)

Statements on opinion change as result of comparison processes: The relation between size of opinion change and the direction of comparison
Sklad, Marcin (Netherlands)

Attitudes toward marriage: Embeddedness and outcomes in personal relationships
Riggio, Heidi (USA)

FP-354 Paper Session
16.45 – 18.45 h Room 35
Attachment styles
Co-Chair: Kõiv, Kristi (Estonia)
Co-Chair: Mak, Miranda Chi Kuan (Hong Kong SAR of the People’s Republic of China)

Attachment style and relationship quality: The mediating effect of dyadic coping
Dinkel, Andreas (Germany)

Attachment: A comparison of young offenders and their parents with control groups
Kõiv, Kristi (Estonia)

Do attachment anxiety and avoidance suppress accurate partner perception of investment model variables?
Macher, Silvia (Austria)

Attachment and depressed affect: The mediating effects of social support on depressed affect
Mak, Miranda Chi Kuan (Hong Kong SAR of the People’s Republic of China)

Transfer of attachment functions and adjustment among young adults in China
Zhang, Hong (Hong Kong SAR of the People’s Republic of China)
Couple or trouble: Attachment dimensions and problem-solving task in dating heterosexual couples
Wang, Ya-Ling (Taiwan)

FP-355 Paper Session
16.45 – 18.45 h Room 36
Students’ beliefs, expectations, learning and memory strategies
Co-Chair: de Corte, Erik (Belgium)
Co-Chair: Farias, Mariana (Venezuela)

Investigation the role of learning styles and cognitive styles in learning English, mathematics and physics
Homayouni, Alireza (Islamic Republic of Iran)

Students’ mathematical dispositions: The interrelated role of classroom culture and students’ beliefs
de Corte, Erik (Belgium)

Beliefs about knowledge and knowing of Thai university students: Personal epistemology and the undergraduate education
Fujiwara, Takayoshi (Thailand)

Metacognition component and performance: An analysis to student work
Escorcia, Dyanne (France)

Metacognitive strategies used by university students in the process of mathematical problem solving
Farias, Mariana (Venezuela)

“I’ve been told that’s a good textbook”: Does quality information about an instructional medium influence achievement?
Fries, Stefan (Germany)

FP-356 Paper Session
16.45 – 18.45 h Room 37
Advances in factor analysis and structural equation modeling
Co-Chair: Cheung, Mike W.-L. (Singapore)
Co-Chair: Beauducel, André (Germany)

Choosing the number of factors based on simplicity
Okada, Kensuke (Japan)

A simulation study on parallel analysis with ipsative data
Beauducel, André (Germany)

How to analyze data getting from semantic differential technique (SD)
Mitina, Olga (Russia)

Estimating and testing average causal effects by conditioning on latent covariates: The application of non-standard structural equation models
Kroehne, Ulf (Germany)

The utility of structural equations models in detecting adaptation equivalence: A study of the accuracy of estimation, power and type-1 error rate of multigroups confirmatory factor analysis with mean structure as a special case of structural equations
Purwono, Urip (Indonesia)

A model for integrating fixed-, random- and mixed-effects meta-analyses into structural equation modeling
Cheung, Mike W.-L. (Singapore)

FP-357 Paper Session
16.45 – 18.45 h Room 38
Advances in item response modeling
Chair: Zeng, Li (People’s Republic of China)

Item calibration error in Computerized Adaptive Testing (CAT)
Yousfi, Safir (Germany)

A new equating method for nonequivalent groups design under nonrandom assignment
Miyazaki, Kei (Japan)

Comparison of three approaches to missing response data for binary items in item response theory
Zeng, Li (People’s Republic of China)

Comparison of three non-parametric approaches to attribute characteristic curve estimation
Yu, Na (People’s Republic of China)

The effect of sample size ratio on the power and type I error of the mantel-haenszel and logistic regression procedures in the detection of differential item functioning
Herrera Rojas, Aura Nidia (Colombia)

FP-358 Paper Session
16.45 – 18.45 h Room 39
Advances in psychological measurement and research methods
Chair: Sikström, Sverker (Sweden)

Cognitive diagnostic models
Yan, Duanli (USA)

Selection of optimum psychological communication dyad strategies based on a Fuzzy MCDM process
Sheu, Ching-Fan (Taiwan)
Latent semantic analysis reveals higher valence for ingroups than outgroups
Sikström, Sverker (Sweden)

Optimal design of signal detection theory studies
Stanislaw, Harold (USA)

Biases in frequency reports: Effects of response format, time unit and reference period on reported behavioural frequencies
Klaas, Hannah Sophie (Germany)

**FP-359**

**Paper Session**

**16.45 – 18.45 h**

**Acquisition of language IV**

Co-Chair: Moro, Christiane (Switzerland)
Co-Chair: Jensen de López, Kristine (Denmark)

Pragmatic-semantic factors and input influence Danish children’s comprehension of passive constructions
Jensen de López, Kristine (Denmark)

Comprehension vs. production in language acquisition
Prat-Sala, Merce (United Kingdom)

Canonical and symbolical uses of objects and development of language: A case study
Moro, Christiane (Switzerland)

Relationship between reading/writing development in English and cognitive abilities amongst Japanese junior high school pupils: Normal vs. poor readers
Wydell, Taeko (United Kingdom)

Cognitive behaviours and connectivity mental system in second language context: Declines in sensitive period?
Figueiredo, Sandra (Portugal)

**Poster Session**

**Thursday Morning, 09.00 – 12.00 h**

**Topic: Research methods and statistics**

**PS-Thu-am-001** Japanese life-patterns in the 2000s I: Life-pattern and work/family/leisure balance
Yamashita, Miyako (Japan)

**PS-Thu-am-002** Reliability and validity of the Chinese love attitude scale
Yang, Yang (People’s Republic of China)

**PS-Thu-am-003** The validity and reliability coefficients of Iranian adolescents risk-taking (IARS)
Zadeh Mohammadi, Ali (Islamic Republic of Iran)

**PS-Thu-am-004** A study of initialization trait value in computerized adaptive personality testing
Zhang, Qinghua (People’s Republic of China)

**PS-Thu-am-005** Interpersonal perceptions as predictors of group performance
Andrés, Amara (Spain)

**PS-Thu-am-006** Validating pedagogy graduating examination constructs through structural modelling
Castañeda Figueiras, Sandra (Mexico)

**PS-Thu-am-007** The relationship between body image measured by different methods, general self-esteem and life satisfaction
Chen, Li (People’s Republic of China)

**PS-Thu-am-008** Validation of a test for predicting resilient adolescents: Youths in Medellin, Colombia
Duque, Luis F (Colombia)

**PS-Thu-am-010** Equating item parameters under the graded response model
Hattori, Tamaki (Japan)

**PS-Thu-am-011** The modified analytical steps for multilevel latent growth modeling and its applications
Huang, Xiaorui (Hong Kong SAR of the People’s Republic of China)

**PS-Thu-am-012** Using the measurement’s method of the reflexive representations in cross-cultural researches
Khromov, Anatoly (Russia)

**PS-Thu-am-013** Data-division-specific robustness and power of randomization tests for ABAB designs
Manolov, Rumen (Spain)
POSTER SESSION, THURSDAY MORNING, 09.00 – 12.00 H

**PS-Thu-am-014** Statistical properties of a restricted randomization test
*Manolov, Rumen (Spain)*

**PS-Thu-am-015** On the magnitude of publication bias in studies of the therapeutic efficacy of hypnosis
*Moshagen, Morten (Germany)*

**PS-Thu-am-016** Polish adaptation of the Hoffman Gender Scale
*Roszak, Joanna (Poland)*

**PS-Thu-am-017** Why distribution anomalies unveil an error in psychology
*Schartz, Michael (Germany)*

**PS-Thu-am-018** Using the LLTM for the determination of item generating rationals for the comprehension of reading
*Sonnleitner, Philipp (Austria)*

Voluntary engagement in an open web-based encyclopedia: From reading to contributing
Schroer, Joachim (Germany)

**S-245 Symposium**

08.00 – 10.00 h  
Hall 4

The science of heuristics: Methodology and scope
Chair: Mousavi, Shabnam (USA)

Simple heuristics and the problem of strategy identification
Woike, Jan K. (Switzerland)

When cognitive processes exploit the environment rather than reflect it
Brighton, Henry (Germany)

Even “No” information can become an information
Zurbriggen, Seraphina (Switzerland)

Heuristics, cognitive abilities, and judgment under uncertainty
Cokely, Edward T. (Germany)

The un necessity of a simplicity-accuracy trade-off for heuristics
Martignon, Laura (Germany)  
Mousavi, Shabnam (USA)

**S-246 Symposium**

08.00 – 10.00 h  
Hall 5

Vicarious emotions: Antecedents, processes and consequences
Co-Chair: Olsson, Andreas (USA)  
Co-Chair: Zaki, Jamil (USA)

Using self-knowledge to infer others’ preferences
Mitchell, Jason (USA)

The role of the mirror neuron system in understanding emotional actions
Montgomery, Kim (USA)

I’ve got me under your skin: direct and vicarious experience of social touch
Morrison, Kim (Sweden)

Beyond association: The role of empathy in vicarious fear learning
Olsson, Andreas (USA)

I have been there: The evolution and neural mechanisms of shared emotional experience
Preston, Stephanie (USA)

The role of shared affect in empathic accuracy
Zaki, Jamil (USA)

**S-247 Symposium**

08.00 – 10.00 h  
Hall 6

New developments in computer based assessment: Implications for competence assessment
Co-Chair: Martens, Thomas (Germany)  
Co-Chair: Busana, Gilbert (Luxembourg)

TAO: Paving the way to new assessment instruments using an open and versatile computer-based platform
Latour, Thibaud (Luxembourg)

A web-based system for the evaluation of information processing strategies in the domain of scientific literacy
Martin, Romain (Luxembourg)

Developing items for electronic reading assessment: The hypertext builder
Goldhammer, Frank (Germany)

A web-based system for mathematical problem understanding and solving
Busana, Gilbert (Luxembourg)

Online adaptive versus paper-pencil testing
Molnár, Gyöngyvér (Hungary)

Discussant: Frey, Andreas (Germany)

**S-248 Symposium**

08.00 – 10.00 h  
Hall 7

Toward establishing common ground for an international evidence based psychology
Chair: O’Roark, Ann Marie (USA)

Evidence based psychology and the need for international cohesiveness
Knowles, Michael (Australia)

Functional approaches to EBP in multicultural practice: Challenges of contextualizing and connecting scientific efficacy to practice effectiveness
Tanaka-Matsumi, Junko (Japan)

Problems psychologists face when providing services in states or countries with varying educational requirements and credentials
Vandaveer, Vicki (USA)

Similarities and differences in US and European understanding of evidence based psychology
Draguns, Juris G. (USA)
Caveats and lessons learned: Fostering multicultural understanding between western trained professionals and indigenous practitioners in Africa and Asia
Mullin, Virginia (USA)
Discussant: Fowler, Raymond (USA)

**Symposium**

**S-249**

**08.00 – 10.00 h**
**Hall 8**

Judgments of frequency and duration
Chair: Winkler, Isabell (Germany)

Cue and instance sampling in judgments of event frequencies
Pachur, Thorsten (Switzerland)

The asymmetry in estimating frequency and duration
Betsch, Tilmann (Germany)

Judgements of frequency and duration in waiting situations
Winkler, Isabell (Germany)

The impact of encoding strategies on the interdependence of time and frequency processing
Renkewitz, Frank (Germany)

PASS-T: An associative learning model that simulates judgments of frequency and duration
Sedlmeier, Peter (Germany)

Discussant: Glöckner, Andreas (Germany)

**S-250**

**08.00 – 10.00 h**
**Hall 9**

Factors mediating the link between students’ migration background and school success
Co-Chair: Hannover, Bettina (Germany)
Co-Chair: Stanat, Petra (Germany)

The role of school vacations for the development of achievement differences between immigrant and native students
Becker, Michael (Germany)

The influence of social networks in multicultural schools on school performance
Fortuin, Janna (Netherlands)

How students’ sexist beliefs affect educational success
Rau, Melanie (Germany)

Evaluation of language assessment in pre-primary education
Roeder, Ute-Regina (Germany)

Motivation and school perceptions among first and second generation immigrant youth: A cross-national comparison
Segeritz, Michael (Germany)
Discussant: Cortina, Kai S. (USA)

**Symposium**

**S-251**

**08.00 – 10.00 h**
**Hall 10**

Promoting environmental sustainability by effective social decision making
Co-Chair: Ohnuma, Susumu (Japan)
Co-Chair: Midden, Cees J. H. (Netherlands)

Effects of similarity and voice on procedural fairness and trust: Experiments in Japan and the Netherlands
Hiroshi, Nonami (Japan)

When does procedural fairness influence acceptance of environmental plan? Moderating effect of trust in authority
Yukio, Hirose (Japan)

Bias in the exchange of arguments: The case of scientists’ evaluation of lay viewpoints on GM food
Cuppen, Eefje (Netherlands)

Effects of participation in the social decision process on social acceptance
Ohnuma, Susumu (Japan)

Not fair (for me)! The influence of personal relevance on automatic versus controlled social justice inferences
Ham, Jaap (Netherlands)

Discussant: Midden, Cees J. H. (Netherlands)

**Symposium**

**S-252**

**08.00 – 10.00 h**
**Roof garden**

Early, automatic processing involved in the causation of emotion and affective responses
Chair: Moors, Agnes (Belgium)

Investigating the automaticity of appraisal variables
Moors, Agnes (Belgium)

Investigations of temporal unfolding of emotion-constituent appraisal using EEG
Grandjean, Didier (Switzerland)

Appraisal mechanisms and rapid attention deployment
Brosch, Tobias (Switzerland)

Semantic processing precedes affect retrieval: The neurological case for cognitive primacy in visual processing
Storbeck, Justin (USA)
On the viability of the automatic stimulus evaluation hypothesis: Goal-dependency effects in affective and nonaffective stimulus processing
Spruyt, Adriaan (Belgium)
Discussant: Frijda, Nico (Netherlands)

S-253 Symposium
08.00 – 10.00 h  Hall 14.2
Emotional intelligence and cognitive processes
Co-Chair: Roberts, Richard D. (USA)
Co-Chair: Matthews, Gerry (USA)

A functional approach to the definition and measurement of emotional competence
Scherer, Klaus R. (Switzerland)

Developing and validating situational judgment tests of emotional intelligence
Roberts, Richard D. (USA)

Emotional understanding for self and others: The target makes a difference
Turß, Michaela (Germany)

Emotion regulation in the detection of deception
O’Sullivan, Maureen (USA)

Emotional intelligence and coping with threat
Zeidner, Moshe (Israel)

Convergent and discriminant validity evidence for emotional intelligence tests and related measures: A meta-analysis
Schulze, Ralf (USA)

S-254 Symposium
08.00 – 10.00 h  Hall 15.2 A
Developmental aspects of text-picture-integration
Co-Chair: Horz, Holger (Germany)
Co-Chair: McElvany, Nele (Germany)

The development of visualization ability
Horz, Holger (Germany)

Development of reading literacy using PISA-like test
Vidal-Abarca, Eduardo (Spain)

Integrative processing of text and graphics by 5- and 6-graders at different levels of schooling
Schnotz, Wolfgang (Germany)

Text-picture integration in the school learning context: Teacher competence
McElvany, Nele (Germany)

A social psychological reading of multimodal scientific texts in online media
Roth, Wolff-Michael (Canada)
Discussant: van Gog, Tamara (Netherlands)

S-255 Symposium
08.00 – 10.00 h  Hall 15.2 B
Evaluation of competence development in counselling and psychotherapy
Chair: Drexler, Arthur (Austria)

Effectiveness of psychotherapy training: On the evaluation of psychotherapeutic concept competence
Andreatta, Pia (Austria)

Emotion and relationship within psychotherapy-trainees
Pauza, Elisabeth (Austria)

Communication and interaction in the counselling of psychotherapy trainees
Stippler, Maria (Austria)

Research into course evaluation: Professional coach training
Drexler, Arthur (Austria)

How to become a counsellor: Pre-post-testing of trainees and their counselling competence
Möller, Heidi (Germany)

S-256 Symposium
08.00 – 10.00 h  Room 43
Dynamic Testing (DT) and the assessment of cognitive modifiability: Recent applications and methodological developments in educational and clinical settings
Chair: Wiedl, Karl Heinz (Germany)

Using dynamic criteria for the validation of a learning potential test of analogical reasoning
Hessels, Marco (Switzerland)

Dynamic testing in children: Individual differences and learning patterns in indigenous and ethnic minority children
Resing, Wilma (Netherlands)

Estimation of cognitive plasticity in elderly subjects using dynamic evaluation techniques
Navarro, Elena (Spain)
Learning potential and rehabilitation outcome in schizophrenia: A longitudinal study
Watzke, Stefan (Germany)

Learning potential on the WCST: First results from fMRI, 1H-MRS- and genetic association studies in schizophrenia
Pedersen, Anya (Germany)

Repeated administrations of the Wisconsin Card Sorting Test: A typological algorithm considering stability and practice effects
Waldorf, Manuel (Germany)

Discussant: Carlson, Jerry (USA)

S-257 Symposium
08.00 – 10.00 h Room 44
Advances in complex data analysis and modeling
Chair: Klein, Andreas (Canada)

Modelling self-reported competencies of graduates: Psychology as an example
Mutz, Rüdiger (Switzerland)

The problem of causal inference in mediator analysis
Klein, Andreas (Canada)

Analyzing latent nonlinear mediation models with LMS
Brandt, Holger (Germany)

Effects of partial measurement (non)invariance on manifest sumscore differences across groups
Steinmetz, Holger (Germany)

Discussant: Schermelleh-Engel, Karin (Germany)

S-258 Symposium
08.00 – 10.00 h Room 11/12
Sleep, dreams, and emotion: Affective neuroscience approaches to the functions of sleep
Co-Chair: Wagner, Ullrich (Switzerland)
Co-Chair: Schwartz, Sophie (Switzerland)

REM sleep and emotional memories
Wagner, Ullrich (Switzerland)

Sleep preferentially enhances memory for emotional components of scenes
Payne, Jessica (USA)

Dream emotions: Prevalence and their continuity to waking life
Schredl, Michael (Germany)

Review of the threat simulation theory: Dreams portray the most salient emotional memory traces
Valli, Katja (Finland)

Sleep deprivation on the post-encoding night modifies the neural correlates of emotional memory retrieval after short and long retention period
Sterpenich, Virginie (Belgium)

Reward processing during game-playing in narcoleptic patients: A functional MRI study
Schwartz, Sophie (Switzerland)

S-259 Symposium
08.00 – 10.00 h Room 13/14
Working memory and arithmetic problem solving
Chair: Grube, Dietmar (Germany)

Development of arithmetical strategies in preschool age with and without promotion of numerical concept
Peucker, Sabine (Germany)

The impact of working memory, intelligence and domain-specific precursors on mathematics and spelling
Krajewski, Kristin (Germany)

Working memory and individual differences math achievement: A longitudinal study from first to second grade
de Smedt, Bert (Belgium)

Development of solving simple addition problems in elementary school age: Changes in working memory demands
Grube, Dietmar (Germany)

Children who perform poorly in arithmetic: Overload of working memory?
van Lieshout, Ernest C. D. M. (Netherlands)

Instruction effects in mental arithmetic: The role of working memory and the influence of gender
Vandierendonck, André (Belgium)

S-260 Symposium
08.00 – 10.00 h Room 15/16
Ethical issues associated with test development and use in rapidly developing countries
Chair: Leach, Mark (USA)

Ethics and test use globally: Recent research
Leach, Mark (USA)
Conditions for testing equity in six sub-Saharan African countries
Mpofu, Elias (USA)

Testing and ethics in the United Arab Emirates and the Arab world
Alghorani, Mohammad Adnan (United Arab Emirates)
Nassar, Khalaf (United Arab Emirates)

Romanian psychologists’ views on ethical test usage
Iliescu, Dragos (Romania)

Test use and guidance in China
Yan, Greg (People’s Republic of China)
Discussant: Oakland, Thomas (USA)

Costs of daily support transactions: How long do they last?
Shrout, Patrick (USA)

Situational appraisals and the transmission of depressive symptoms: A study with couples undergoing assisted reproduction treatment
Knoll, Nina (Germany)

A longitudinal approach to modeling individual differences in adjustment to bereavement
Burke, Christopher (USA)

Effects of coping-oriented couple therapy on depression
Widmer, Kathrin (Switzerland)
Discussant: Bolger, Niall (USA)

Change in the third and fourth age: Overview of the Berlin Aging Study (BASE)
Smith, Jacqui (USA)

Linking days to decades: Late life intraindividual variability across domains
Ram, Nilam (USA)

On the dynamic interplay between cognition and emotion in old age: Evidence for dynamic linkages?
Staudinger, Ursula M. (Germany)

Processes of decline in late life: Distance-from-birth vs. distance-to-death
Gerstorf, Denis (USA)

Does social participation attenuate cognitive decline in old age? On testing dynamic developmental hypotheses with longitudinal panel data
Lindenberger, Ulman (Germany)
Discussant: Spiro III, Avron (USA)

Mobilization of social support in dyads: Determinants, consistency, and relations to supportive action
Klauer, Thomas (Germany)

A narrative discourse of the developmental tasks for Japanese Olympians
Toyoda, Norishige (Japan)
Readiness and skills necessary for Japanese professional football players towards the retirement career
Takahashi, Kiyoshi (United Kingdom)

Overcoming incompatibilities with managers and professional players
Hattori, Yasuhiro (Japan)

Internal support systems for Japanese top athletes in transition
Ogawa, Chisato (Japan)

External support systems for building a social network between athletes
Hara, Rie (Japan)

**S-265 Symposium**
08.00 – 10.00 h Room 23
Psychological perspectives on cultural usability and human computer interaction
Chair: Clemmensen, Torkil (Denmark)

Do Asian people take longer for warm-up during usability test?
Li, Huiyang (People’s Republic of China)

Effects of cultural influence while using likert scales in the context of product evaluation in China
Roese, Kerstin (Germany)

User analysis for South East Asia. Does that work? A cross-check of two methods and two cultures: China and Korea
Braun, Björn-M. (Germany)

Communication pattern and usability problem finding in cross-cultural usability testing
Shi, Qingxin (Denmark)

Is cultural factors affect both evaluator’s and test user’s thinking in a usability test?
Sun, Xianghong (People’s Republic of China)

Usability issues on the Chinese fire information display
Zhang, Liang (Germany)
Discussant: Clemmensen, Torkil (Denmark)

**S-266 Symposium**
08.00 – 10.00 h Room 24
User psychology and interaction design
Co-Chair: Saariluoma, Pertti (Finland)
Co-Chair: Oulasvirta, Antti (Finland)

Cognitive load and human-machine interaction
Canas, Jose (Spain)

From applied cognitive research to neuro-ergonomics: The quest for ecological validity
Velichkovsky, Boris M. (Germany)

Modelling user psychology for efficient usability evaluation
Moeller, Sebastian (Germany)

The fragmentation of user psychological research in areas of ICT
Oulasvirta, Antti (Finland)

Psychology and human design engineering
Saariluoma, Pertti (Finland)

Emotion-based mobile services and content in public spaces
Saari, Timo (Finland)

**S-267 Symposium**
08.00 – 10.00 h Room 25
Informal learning on the web: Individual differences and evaluation processes
Co-Chair: Kammerer, Yvonne (Germany)
Co-Chair: Gerjets, Peter (Germany)

What evaluation processes are performed during web search? An eye-tracking study
Kammerer, Yvonne (Germany)

Teaching students how to evaluate information on the WWW
Walraven, Amber (Netherlands)

Information search on the web and individual’s epistemological beliefs
Kienhues, Dorothe (Germany)

Internet-specific epistemic beliefs and internet-based learning activities among Norwegian physics undergraduates
Stromso, Helge I. (Norway)

Memory for information spaces: Effects of visuo-spatial abilities and representational aids

Chair: Ulrich, Rolf (Germany)

The human circadian clock in real life
Rönneberg, Till (Germany)

Human clock disorders
Skene, Debra (USA)

Circadian variation in cognitive control
Bratzke, Daniel (Germany)

The triangle of sleep, clock and light in the context of shift-work
Juda, Myriam (Germany)

Circadian influences on sensorimotor control
Jasper, Isabelle (Germany)

Circadian rhythm in speech perception
Pusch, Kathrin (Germany)

Circadian and homeostatic influences on interval timing
Späti, Jakub (Switzerland)

**IS-136 Invited Symposium**
11.30 – 13.30 h  Hall 7
Analysis of causal effects in experiments and observational studies
Chair: Steyer, Rolf (Germany)

Sufficient conditions for unbiased average and conditional causal treatment
Steyer, Rolf (Germany)

For objective causal inference, design trumps analysis
Rubin, Donald B. (USA)

Conditions under which adjustments for nonrandom assignment might be successful
Shadish, William R. (USA)

Two conditions under which experiments and quasi-experiments have repeatedly given comparable causal estimates
Cook, Thomas D. (USA)

Towards minimizing bias in effect estimates in observational studies: Two empirical examples
West, Stephen G. (USA)

Testing general hypotheses on individual causal effects using aggregate data
Erdfelder, Edgar (Germany)

**IS-137 Invited Symposium**
11.30 – 13.30 h  Hall 8
Test security applications of innovation in data forensics analysis
Chair: Foster, David (USA)

Catching cheaters with better testing procedures and statistics
Hambleton, Ronald (USA)
Monitoring of suspicious response-time patterns on computerized tests
van der Linden, Wim (Netherlands)

Applying data forensics to defend the validity of online employment tests
Burke, Eugene (United Kingdom)

Using large-scale simulations to evaluate the effects of cheating
Wright, Dave (USA)

Discussant: Foster, David (USA)

IS-138 Invited Symposium
11.30 – 13.30 h Hall 9
Language processing in Chinese
Chair: Chen, Hsuan-Chih (Hong Kong SAR of the People’s Republic of China)

Morphemic ambiguity resolution in processing Chinese
Tsang, Yiu-Kei (Hong Kong SAR of the People’s Republic of China)

The role of semantic radicals in Chinese character recognition: Behavioural and electrophysiological findings
Weekes, Brendan S. (United Kingdom)

Involvement of cognitive control in Chinese sentence comprehension: Evidence from fMRI
Zhou, Xiaolin (People’s Republic of China)

Age-of-acquisition effects on naming characters in two Chinese dyslexic individuals
Law, Sam-Po (Hong Kong SAR of the People’s Republic of China)

Reading unspaced scripts: Eye movement in reading Chinese and Japanese
Feng, Gary (USA)

Chinese and English speakers’ perception of the time of an event
Chen, Jenn-Yeu (Taiwan)

Psychological evaluation of individual stress resistance by the means of state-trait paradigm
Leonova, Anna (Russia)

The role of resource investment coping in a development of individual stress resistance
Vodopyanova, Natalia (Russia)

A complex non-drug technology for improving the level of individual stress-resistance
Glazachev, Oleg (Russia)

Discussant: Dormann, Christian (Germany)

IS-140 Invited Symposium
11.30 – 13.30 h Roof garden
New trends in clinical psychology
Co-Chair: Rief, Winfried (Germany)
Co-Chair: Hofmann, Stefan (USA)

Amplifying the effect of psychological interventions through pharmacotherapy

Discussant: Hofmann, Stefan (USA)

IS-141 Invited Symposium
11.30 – 13.30 h Hall 14.2
Touching for learning: Contributions of haptic modality in learning to read, to write and to identify geometrical shapes in kindergarten children
Chair: Gentaz, Edouard (France)

Effect of visuo-haptic exploration of letters in the reading acquisition
Hillairet de Boisferon, Anne (France)

A visuo-haptic device (Telemaque) increases the kindergarten children’s handwriting acquisition
Palluel-Germain, Richard (France)
Evaluation of multisensory interventions intended for the acquisition of geometrical shapes in kindergarten children: A study on the contribution of the haptic modality
Pinet, Leatitia (France)

Learning of arbitrary association between visual and auditory unknown entities in adults: The “Bond effect” of the haptic exploration
Gentaz, Edouard (France)

Haptic guidance increases the visuo-manual tracking of untrained ellipses drawing
Bluteau, Jeremy (France)

**IS-142 Invited Symposium**

11.30 – 13.30 h Hall 15.2 A
Perception, action and graphic representation
Co-Chair: Vinter, Annie (France)
Co-Chair: Lange-Küttner, Christiane (United Kingdom)

Drawings by blind people who had sight for an extended period
D’Angiulli, Amedeo (Canada)

Beyond the global and analytical processing dichotomy: An approach through drawing in children
Vinter, Annie (France)

Developmental differences in drawing performance of the dominant and non-dominant hand
van Mier, Hanneke (Netherlands)

The impact of knowledge on copying and drawing accuracy in individuals with autism
Ropar, Danielle (United Kingdom)

Different repetition/training effects in spatial memory and drawing
Lange-Küttner, Christiane (United Kingdom)

**IS-143 Invited Symposium**

11.30 – 13.30 h Hall 15.2 B
The brain basis of language comprehension
Chair: Friederici, Angela D. (Germany)

From action to syntax: Evidence from ERPs and fMRI for common neural systems
Kuperberg, Gina R. (USA)

Language comprehension: Relevant brain systems and their temporal relation
Friederici, Angela D. (Germany)

Contributions of memory brain systems to first and second language
Ullman, Michael T. (USA)

The role of the basal ganglia in language processing
Kotz, Sonja A. (Germany)

The monitoring of language perception
Kolk, Herman (Netherlands)

**IS-144 Invited Symposium**

11.30 – 13.30 h Room 43
Cutting it fine: Understanding and managing self-injurious behaviour
Chair: Hasking, Penelope (Australia)

Self-injurious behaviour in adolescents

Prenatal and early biological risk, genes and human development
Chair: Wolke, Dieter (United Kingdom)

Development of the fetal brain
Hueppi, Petra (Switzerland)

Premature birth as a natural experiment for the study of human functional neuroplasticity
Wolke, Dieter (United Kingdom)

Early biological and psychosocial risk for hyperkinetic disorder
Esser, Günther (Germany)

Testing for environmentally-mediated effects: An example using bullying victimisation and children’s internalizing problems
Arseneault, Louise (United Kingdom)
An extensive multi-centre study on genetics and gene x environment interaction of ADHD
Meyer, Jobst (Germany)
Discussant: Raikkonen, Katri (Finland)

**S-271 Symposium**
11.30 – 13.30 h Room 11/12
The wording effect: Structural models and consequences for validity
Co-Chair: Rauch, Wolfgang (Germany)
Co-Chair: Schweizer, Karl (Germany)

The factor structure of self-report instruments comprised of positive and negative polarity items
Bors, Douglas A. (Canada)

Personality correlates of method effects to negatively worded items on the RSES
Di Stefano, Christine (USA)

The investigation of the dimensionality of social optimism by means of the fixed-links model
Schweizer, Karl (Germany)

Investigating the effect of item wording using the method effect model
Pohl, Steffi (Germany)

Ideal point response processes as an alternative explanation for the wording effect
Rauch, Wolfgang (Germany)

Temporal stability of wording effects: Empirical evidence from short-term test-retest designs
Vautier, Stéphane (France)

Evaluation of university courses by students’ assessment of gains in competences
Maier, Brigitte (Austria)

The role of key competencies in the Bologna process: Rhetoric and reality
Schaeper, Hilde (Germany)

**S-273 Symposium**
11.30 – 13.30 h Room 15/16
Perception and performance in real, complex environments
Chair: Müller, Friedrich (Germany)

Assessment of occupational exertion and strain in laboratory- and real occupational environments
Müller, Friedrich (Germany)

Perception-action dynamics of locomotion with extension of the body
Higuchi, Takahiro (Japan)

Learning musical expressions using visual feedback
Sadakata, Makiko (Netherlands)

Reaction times in automobile driving under various arousal states
Mori, Shuji (Japan)

Movement planning under risk, decision making under risk
Maloney, Laurence (USA)

Implicit processes in moral decision making: Why milliseconds matter
Marquardt, Nicki (Germany)

**S-272 Symposium**
11.30 – 13.30 h Room 13/14
Bologna process: New challenges on higher education
Chair: Braun, Edith (Germany)

What is value of higher education?
Arthur, Lore (United Kingdom)

Culture and self: Independence, interdependence, and beyond
Chair: Kitayama, Shinobu (USA)

Does interdependence equal weakness in the land of the free?
Markus, Hazel Rose (USA)

Understanding cultural differences in the self: A neuroimaging approach
Han, Shihui (People’s Republic of China)

Cognition and parenting
Keller, Heidi (Germany)

Eco-cultural basis of cognition: Farmers and fishermen are more holistic than herd in rural Turkey
Uskul, Ayse K. (United Kingdom)

Unconscious influences of social eyes: Choice and motivation in the U.S. and Korea
Kitayama, Shinobu (USA)
Discussant: Semin, Gun (Netherlands)

IS-153 Invited Symposium
16.45 – 18.45 h Hall 7
Adaptive testing in theory and application
Chair: Hornke, Lutz F. (Germany)

Adaptive testing in the 21st century
Bejar, Isaac I. (USA)

Impact of violations of the unidimensionality assumption in computer-adaptive testing
Walter, Otto B. (Germany)

Item pool design
Reckase, Mark (USA)

Item writing rationales
Kubinger, Klaus D. (Austria)

Recent and future applications of computer-adaptive testing
Hornke, Lutz F. (Germany)
IS-154  Invited Symposium

16.45 – 18.45 h  Hall 8
Eating disorders  
Chair: Tuschen-Caffier, Brunna (Germany)

Ecological Momentary Assessment (EMA) to evaluate efficacy of a cognitive-behavioral treatment for binge eating disorder  
Munsch, Simone (Switzerland)

Predictors and moderators of treatment outcome in a cognitive-behavioral (CBT) short- and long-term treatment for Binge Eating Disorder (BED)  
Schlup, Barbara (Switzerland)

The needs of carers: A comparison between eating disorders and schizophrenia  
de Zwaan, Martina (Germany)

Meta-analysis on the effectiveness of various treatments for Binge Eating Disorder  
Vocks, Silja (Germany)

Towards defining subtypes in overweight children  
Braet, Caroline (Belgium)

IS-155  Invited Symposium

16.45 – 18.45 h  Hall 9
Recovery from work stress  
Chair: Sonnentag, Sabine (Germany)

Do we recover from vacation?  
de Bloom, Jessica (Netherlands)

Vacation fade-out in teachers  
Kühnel, Jana (Germany)

Recovery experiences among Finnish employees  
Kinnunen, Ulla (Finland)

Physical exercise as a daily recovery activity: A closer look on how it works  
Feuerhahn, Nicolas (Germany)

Biological underpinnings of recovery from work in employed women and men  
Lindfors, Petra (Sweden)

Tell me why I don’t like Mondays.  
Walkowiak, Alicia (Netherlands)

Stress and recovery of working parents in Berlin  
Klumb, Petra (Switzerland)

Discussant: Westman, Mina (Israel)

IS-156  Invited Symposium

16.45 – 18.45 h  Hall 10
Dynamics of mind and body  
Chair: van Orden, Guy (USA)

Embodied cognitive dynamics in language comprehension  
Spivey, Michael J. (USA)

Cognition as the breaking and reforming of constraints  
Stephen, Damian G. (USA)

1/f scaling in speech  
Kello, Christopher T. (USA)

Coupling between cognition and locomotion  
Riley, Michael (USA)

Discussant: van Orden, Guy (USA)

IS-157  Invited Symposium

16.45 – 18.45 h  Roof garden
The psychology of terrorism  
Co-Chair: Sternberg, Robert J. (USA)
Co-Chair: Weis Sternberg, Karin (USA)

From the terrorists’ point of view: What they experience and why they come to destroy  
Moghaddam, Fathali (USA)

Fully committed: Suicide bombers’ motivation and the quest for personal significance  
Krulanski, Arie (USA)

Hate as a precursor to terrorism  
Weis Sternberg, Karin (USA)

Discussant: Sternberg, Robert J. (USA)

IS-158  Invited Symposium

16.45 – 18.45 h  Hall 14.2
Intelligence and cognitive control  
Chair: Necka, Edward (Poland)

Working memory as trait and state  
Engle, Randall (USA)

Intelligence, cognitive control, and working memory capacity: Three distinct relatives of selective attention  
Cowan, Nelson (USA)

Intelligence and working memory: A time accuracy function (TAF) approach  
Brzezicka, Aneta (Poland)

Working memory capacity, attention control and conscious experience  
Kane, Michael (USA)
Executive control or focus of attention capacity? Working memory contribution to general fluid intelligence
Chuderski, Adam (Poland)

**IS-160 Invited Symposium**

16.45 – 18.45 h  
**Hall 15.2 B**

**Contribution from psychology to active ageing**
Chair: Fernández-Ballesteros, Rocio (Spain)

Lay concept of aging well: Cross-cultural comparisons
Fernández-Ballesteros, Rocio (Spain)

Psychological distress in women: Implications for active aging
Contança, Oscar (Portugal)

The promotion of the active aging: Evaluation of the multimedia program vital ageing
Caprara, Maria Giovanna (Italy)

Aging stereotypes, self-stereotypes and active ageing
Bustillos, Antonio (Spain)

Discussant: Efklides, Anastasia (Greece)

**IS-161 Invited Symposium**

16.45 – 18.45 h  
Room 43

**On the suitability of direct brain-computer interfaces (BCI) for communication, control of robotic devices, and improvement of cognitive functioning**
Chair: Neuper, Christa (Austria)

Short introductory presentation: Towards brain-computer interfacing: Applications and perspectives
Neuper, Christa (Austria)

Brain-computer interfaces and quality of life in locked-in patients
Kuebler, Andrea (United Kingdom)

Motor imagery and brain-computer interfaces for restoration of movement
Neuper, Christa (Austria)

Inducing neural plasticity in neurological rehabilitation: Brain-computer interface use for the treatment of autism spectrum disorders
Pineda, Jaime (USA)

Machine learning methods for fast interfacing between brain and computer
Tangermann, Michael (Germany)

**IS-162 Invited Symposium**

16.45 – 18.45 h  
Room 44

**Gender, identity, and collective action**
Chair: Undurti, Vindhya (India)

Social identity, gender and collective action

Goal (in)congruence between teachers and students in informal learning environments
Minnaert, Alexander (Netherlands)

The effects of a training program for minimizing school-leisure conflicts
Reiser, Goran (Germany)

Resolving goal conflicts: An intervention study
Spaniol, Christina (Germany)

Discussant: Dickhäuser, Oliver (Germany)

S-285 Symposium
16.45 – 18.45 h
Room 13/14
Conflicts, errors and emotions
Co-Chair: Sommer, Werner (Germany)
Co-Chair: Schacht, Annekathrin (Germany)

Emotions in Go/No Go conflicts?
Schacht, Annekathrin (Germany)

Modeling familiarity-based response conflicts in recognition memory for emotional words
Hofmann, Markus (Germany)

Post-error adjustments
Ullsperger, Markus (Germany)

The influence of punishment on action monitoring
Masaki, Hiroaki (Japan)

Adaptation to gain? Effects of winning probability on feedback negativity in a gambling task
Nittono, Hiroshi (Japan)

Making errors together
de Bruijn, Ellen R.A. (Netherlands)

S-286 Symposium
16.45 – 18.45 h
Room 15/16
Adolescents’ multiple goals and academic learning
Co-Chair: Hofer, Manfred (Germany)
Co-Chair: Peetsma, Thea (Netherlands)

Students’ well-being and academic achievement as a function of multiple role engagement: Not quantity but quality matters
Derous, Eva (Netherlands)

S-287 Symposium
16.45 – 18.45 h
Room 17/18
Assessing quality in higher education
Co-Chair: Pächter, Manuela (Austria)
Co-Chair: Braun, Edith (Germany)

Internships in Bachelor programmes: Perspectives of different stakeholders
Hapkemeyer, Julia (Germany)

Lecturer’s expectations of academic course evaluation
Ulrich, Immanuel (Germany)

German version of the Approaches to Teaching Inventory (ATI-R) for quality assurance processes in university teaching
Lübeck, Dietrun (Germany)

Course evaluations: New quality aspects in a questionnaire and three approaches for developing teaching skills
Lossnitzer, Tim (Germany)

Assessment of quality in higher education and vocational education and training in Austria
Pächter, Manuela (Austria)

Discussant: Manhal, Simone (Austria)

S-288 Symposium
16.45 – 18.45 h
Salon 19
Repetitive negative thinking across emotional disorders
Co-Chair: Ehring, Thomas (Netherlands)
Co-Chair: Wahl, Karina (Germany)

Differences and similarities between obsessive thoughts and ruminative thoughts in obsessive compulsive and depressed patients
Wahl, Karina (Germany)
Worry and rumination in real life: Do dysphorics prefer to ruminate instead of worry?

Determinants and meaning of growth in cancer survivorship
Park, Crystal (USA)

The meaning of personal growth in the context of cancer: Research and clinical perspectives
Lee, Virginia (Canada)

Discussant: Aldwin, Carolyn (USA)

S-289 Symposium
16.45 – 18.45 h Salon 20
Glucose and glucocorticoid effects on human memory
Chair: Foster, Jonathan (Australia)

Brain imaging investigations of glucose and cognition
Riby, Leigh (United Kingdom)

Acute stress, cortisol and memory
Smeets, Tom (Netherlands)

Processing of emotionally arousing memory materials: Effect on cognitive and physiological processes
Scholey, Andrew (United Kingdom)

Effect of glucose ingestion on recognition memory for emotionally arousing stimuli
Sunram-Lea, Sandra (United Kingdom)

Stress, glucose and memory in adolescents
Smith, Michael (Australia)

Discussant: Foster, Jonathan (Australia)

S-290 Symposium
16.45 – 18.45 h Salon 21
Meaning and personal growth in the context of cancer
Chair: Park, Crystal (USA)

Correlates of anticipated posttraumatic growth among cancer patients

**Poster Session**

**Friday Morning, 09.00 – 12.00 h**

**Topic: Attention and perception**

**PS-Fri-am-001**  The influence of priming and expertise in the time course of real-world observation tasks  
Koerber, Bernd (Germany)

**PS-Fri-am-002**  Line motion illusion triggered by gradient bars: An end point hypothesis  
Kuo, Chun-Yu (Taiwan)

**PS-Fri-am-003**  Memory-based preattentional processing in visual mismatch negativity  
Liu, Tongran (People’s Republic of China)

**PS-Fri-am-004**  Traffic sign perception: Holistic and analytic strategies  
Luna, Rafaela (Spain)

**PS-Fri-am-005**  Conceptual versus perceptual influences in picture detection  
Matsukawa, Junko (Japan)

**PS-Fri-am-006**  Lightness estimation in real 3D scene  
Menshikova, Galina (Russia)

**PS-Fri-am-007**  A dynamic 4-dot mask: The size of masking on coloured stimuli  
Mereu, Stefania (Italy)

**PS-Fri-am-008**  Object substitution masking affects the visibility of equiluminant coloured stimuli  
Mereu, Stefania (Italy)

**PS-Fri-am-009**  The paradigm of preattention: A new method to study the effects of preattentional processing of grouped patterns on selective attention  
Montoro, Pedro R. (Spain)

**PS-Fri-am-010**  Change of fixation point during Gestalt collapse of Chinese character  
Mori, Terunori (Japan)

**PS-Fri-am-011**  Shrinkage of functional field of view induced by emotion  
Nobata, Tomoe (Japan)

**PS-Fri-am-012**  Experiments on binocular stereopsis with inverting view glasses  
Ohta, Masao (Japan)

**PS-Fri-am-013**  The effect of motion in depth on time perception  
Ono, Fuminori (Japan)

**PS-Fri-am-014**  Distinct mechanisms in “where”, “what”, and “how” visual feature processing  
Osaki, Hirotaka (Japan)

**PS-Fri-am-015**  Inverted event-related potentials response to illusory contour in boys with autism  
Prokofyev, Andrey (Russia)

**PS-Fri-am-016**  Critical periods for visual and multisensory functions in humans  
Putzar, Lisa (Germany)

**PS-Fri-am-017**  Temporal preparation facilitates perceptual identification of letters  
Rolke, Bettina (Germany)

**PS-Fri-am-018**  Does face stimulus capture both young and older Japanese adults’ attention?  
Sakata, Yoko (Japan)

**PS-Fri-am-019**  The influence of perceptual grouping on visual contextual modulation  
Sayim, Bilge (Switzerland)

**PS-Fri-am-020**  Sex differences in basic and social emotion recognition  
Simão, Claudia (Portugal)

**PS-Fri-am-021**  Attention enhances the perception of backscroll illusion  
Sugimoto, Fumie (Japan)

**PS-Fri-am-022**  Perceptual bias and attentional bias on chimeric faces processing  
Sui, Guangyuan (People’s Republic of China)

**PS-Fri-am-023**  Figure – ground organization on Watercolor effect and Sumi painting effect  
Takashima, Midori (Japan)

**PS-Fri-am-024**  Mental grouping in multiple-object tracking  
Tanner, Thomas (Germany)

**PS-Fri-am-025**  Individual differences in the attentional blink: The important role of irrelevant information  
Valchev, Nikola (Netherlands)

**PS-Fri-am-026**  Better late than never: How onsets and offsets influence prior entry and exit  
Vingilis-Jaremko, Larissa (Canada)

**PS-Fri-am-027**  Perception of affordances for standing on an inclined surface depends on center of mass and experience  
Wagman, Jeffrey (USA)

**PS-Fri-am-028**  The color-based anticipatory set in preview search: Evidence from a colored dot probing task  
Xu, Baihua (People’s Republic of China)

**PS-Fri-am-029**  Top-down processes based on color cues in preview search  
Xu, Baihua (People’s Republic of China)
**PS-Fri-am-030** Combining representations of visible and invisible motion in estimating time-to contact
Yamada, Yuki (Japan)

**PS-Fri-am-031** Measurement of the Ponzo illusion in the picture drawings
Yamagami, Akira (Japan)

**PS-Fri-am-032** Affective effects generated by motions: Different impression made by the direction of movement
Yoshida, Hiroyuki (Japan)

**PS-Fri-am-033** Does N450 reflect both semantic and response conflict in stroop task? Evidence from the interaction between inhibition of return and stroop effect
Zhang, Yang (People’s Republic of China)

**Topic: Learning, memory and cognition**

**PS-Fri-am-034** Recognition memory impairment after intentional suppression as an all-or-none phenomenon: Electrophysiological evidence
Waldhauser, Gerd (Sweden)

**PS-Fri-am-035** Remembering and knowing personality traits: Figure/ground asymmetries in person-related retrieval experience
Wehr, Thomas (Germany)

**PS-Fri-am-036** Does synaesthesia enhance memory: Short review
Wrzalka, Bartlomiej (Poland)

**PS-Fri-am-037** Analyzing the cost of prospective memory with the diffusion model
Horn, Sebastian (Germany)

**PS-Fri-am-038** The effect of emotional valences of schedules on prospective memory
Ikegami, Kimiko (Japan)

**PS-Fri-am-039** Event related potentials associated to distraction processes caused by events related to pending intentions
Pérez, Enrique (Spain)

**PS-Fri-am-040** Prospective memory failure and the metacognitive experience of “blank in the mind”
Touroutoglou, Alexandra (Greece)

**PS-Fri-am-042** Theta-coupling during working memory maintenance of configural information in Magnetoencephalography (MEG)
Cashdollar, Nathan (United Kingdom)

The Controversial Debates are a new presentation format that we introduce in Berlin, and that we hope will stimulate discussion during the meeting. The Controversial Debates will focus on topics that are both inherently important and interesting to all psychologists. Five Controversial Debates will take place during ICP 2008.

The debates will take place from 15.00 h to 16.30 h on Monday, Wednesday and Thursday.

**Functional neuroimaging has already told us a lot about cognition: Yes or No?**

Methods of functional neuroimaging are used in a steadily increasing number of scientific studies in psychology, the neurosciences, or economics. While these studies have, without doubt, helped develop our knowledge about brain functions, the issue addressed in this debate is to what extent they also have contributed to a better understanding of cognition.

**Monday, 21 July, 15.00 – 16.30 h, Hall 6**

**Moderator**

Amo Villringer, Berlin Neuroimaging Center, Germany

**Debaters**

Max Coltheart, Macquarie Centre for Cognitive Science, Sydney, Australia

Karl Friston, Wellcome Trust Centre for Neuroimaging, London, United Kingdom

**Managing diversity at school: Should students be grouped by their ability?**

Differences in students’ cognitive capabilities affect schooling outcomes from the very beginning and set challenges in providing appropriate learning environments for the entire achievement spectrum. While some countries have a system of comprehensive schools for the first ten years, others have implemented tracking systems after grade 4. There is an ongoing debate about whether students’ needs can be better met in homogeneous learning groups, or whether heterogeneity stimulates learning. A related question concerns whether it is better to integrate or separate students from the extremes of the achievement distribution: Should gifted students and students with learning difficulties stay in regular classrooms or not?

**Tuesday, 22 July, 15.00 – 16.30 h, Hall 6**

**Moderator**

Elsbeth Stern, ETH Zurich, Switzerland

**Debaters**

Camilla Benbow, Vanderbilt University, Nashville, USA

Zemira Mevarech, Bar Ilan University, Ramat Gan, Israel

**Do evidence-based psychotherapy and education require randomized trials?**

The clash between researchers and practitioners is a matter of concern in numerous fields. Many experimenters believe that randomized trials are the sole means of obtaining knowledge about efficient treatments. Yet in health care, evidence-based medicine routinely conflicts with competing interests, and many doctors do not deliver evidence-based treatments. Should psychotherapists always base treatments on the results of experimental studies (randomized trials)? Should educational policy makers always rely on this “gold standard” or instead on quasi-experiments or other methods, and if so, on which? What if a practitioner’s gut feelings conflict with evidence from randomized trials?

**Tuesday, 22 July, 15.00 – 16.30 h, Roof Garden**

**Moderator**

Gerd Gigerenzer, Max Planck Institute for Human Development, Berlin, Germany

**Debaters**

Alan Kazdin, Yale University, New Haven, USA

Barbara Schneider, Michigan State University, East Lansing, USA
Should psychologists adopt the experimental practices of economics?
Motivate, explain, and don’t deceive
Economists experiment on many of the same processes that interest psychologists: decision-making, emotions, concepts of fairness, motivation to work, etc. Yet they are often highly critical, even dismissive, of the results obtained by psychologists in these areas. One criticism is that no meaningful inferences can be made about the rationality of human decision-making from performing studies on participants without any motivation or opportunity to learn and without having the task clearly explained. Another criticism is that psychologists’ penchant for deceiving their subjects is not only immoral but counterproductive, as it induces suspicion, distrust, and counterstrategies in the subject population.

Thursday, 24 July, 15.00 – 16.30 h, Hall 6
Moderator
Denis Hilton, University of Toulouse, France
Debaters
Andreas Ortmann, Charles University, Prague, Czech Republic
Fritz Strack, University of Würzburg, Germany

Do chimpanzees have culture?
Different populations of chimpanzees in the wild engage in different behavioral practices, some of which are very likely socially learned across generations. Some researchers have thus claimed that chimpanzees, like humans, live in cultures. Other researchers have focused on the specific processes by which these behavioral practices might be socially learned and noted differences, arguing that chimpanzees may have culture, but it is very different from human culture. The issue addressed in this debate is how and to what extent the chimpanzee and human versions of culture coincide and diverge.

Mike Tomasello, Max Planck Institute of Evolutionary Anthropology, Leipzig, Germany
ICP 2008 hosts a Young Scientists Program as part of its scientific program. The main goals of the Young Scientists Program are to enhance communication between young scientists from different countries and diverse cultural backgrounds, to promote exchange of knowledge between senior and younger scientists, and to help younger scientists to acquire new insights into special areas of psychology and into psychology at large.

The Young Scientists Program is generously sponsored by the Jacobs Foundation, Zürich, Switzerland.

Activities within the Young Scientists Program include:

- **The Networking Market**: The Networking Market provides the opportunity to exchange ideas and to build up longer-term networks among the participating young scientists. To facilitate communication around specific topics, participants present a poster that summarizes their research area and research questions. The Networking Market will take place on Monday, 21 July, 09.00–11.00h in the foyer in front of hall 9.

- **Panel discussion ‘Developing an academic career’**: The roundtable discussion will address pressing issues on career opportunities as a psychologist. Panelists will include scientists from diverse research settings from all over the world.

**Participants of the panel discussion**

Aleksandra Luszczynska, Colorado University, USA
Luiza Olos, Freie Universität Berlin, Germany
Peter Baguma, Makerere University, Kampala, Uganda
Rodrick ZImba, UNAM, Windhoek, Namibia
Janet van Hell, Radboud University Nijmegen, Netherlands
Ruey-Ming Liao, National Cheng-Chi University, Taipei, Taiwan

The panel discussion will take place on Tuesday, 22 July, 14.00–15.30h in room 17/18.

- **Meet your favorite scholar**: This meeting with eminent scholars provides an unique opportunity to learn from the experiences of highly acknowledged scientists in psychology. Renowned psychologists will talk about their visions on doing research, important insights gathered over the years, or a difficult question that keeps them busy at the moment.

**List of participating researchers**

- Gian Vittorio Caprara, University of Rome, Italy
- Michael Frese, University of Giessen, Germany
- Gerd Gigerenzer, Max Planck Institute for Human Development, Germany
- Peter M. Gollwitzer, University of Konstanz, Germany
- Esther Greenglass, York University, Canada

Congress Party

Thursday, 24 July 2008 20.30 h RAW Tempel
(Revaler Strasse 99, Berlin)

Party with live music and DJs especially – but not exclusively – for young scientists

The party will be your starting point for exploring the Berlin night life.

Tickets can be purchased at the entrance of the RAW Tempel.
Regular entrance fee: EUR 8
Reduced entrance fee*: EUR 4

* Students, doctoral students, participants eligible for a reduced congress registration
ADVANCED RESEARCH TRAINING SEMINARS (ARTS)
ARTS is a program of international psychology (IUPsyS – International Union of Psychological Science, IAAP – International Association of Applied Psychology, and IACCP – International Association of Cross-Cultural Psychology) to provide training opportunities for scholars from low-income countries and to promote their attendance at international congresses of psychology. Contributions from these international associations and from national associations and universities have enabled the following program of seminars for 2008.

Immediately before ICP 2008 two ARTS Seminars are taking place in Berlin. The participants will attend ICP 2008 afterwards.

ARTS Seminar #1
Structural equation modelling with EQS 6.1
Freie Universität, Berlin, Germany
18–20 July 2008
Peter Bentler, PhD, Distinguished Professor of Psychology and Statistics, University of California, Los Angeles (Convener)

ARTS Seminar #2
Large-scale international data sets relevant for research in educational and developmental psychology
Humboldt-University, Berlin, Germany
18–20 July 2008
Judith Torney-Purta, PhD, Professor, University of Maryland, College Park, Maryland, USA
Rainer Lehmann, PhD, Professor, Humboldt University Berlin, Germany
Jo-Ann Amadeo, PhD, Vice-President, The Close-Up Foundation

PRE-Congress Workshops
Sunday, 20 July 2008, 13.00 – 17.00 h
Price per pre-congress workshop: EUR 70

The pre-congress workshops are not included in the registration fee. A separate registration is necessary. Registrations for pre-congress workshops will be accepted on a first-come, first-served basis. The maximum number of participants for pre-congress workshops is limited. However, some pre-congress workshops are still available. Please check at the congress counter for further details.

In order to provide an opportunity for professionals whose working language is German, the Association of German Professional Psychologists (BDP) offers a special workshop program. The topics range from clinical over school psychology to psychotherapy. The organizers have applied for the accreditation of credit points through the Chambers of Psychotherapists.

The BDP workshop program is not included in the registration fee. A separate registration is necessary. Registrations for the workshops will be accepted on a first-come, first-served basis. The maximum number of participants for the BDP workshop program is limited. However, some workshops are still available. Please check at the congress counter for further details.

Workshop für Studierende: Psychologie unterrichten
Gislinde Bovet, Seminar für Didaktik und Lehrerbildung (Gymn.), Rottweil
Sabine Kowal, Anna-Freud-Schule (OSZ), Berlin

[WS-025] Room 31
Schulpsychologie in Deutschland
Stefan Drewes, Leiter der Schulpsychologischen Beratungsstelle, Düsseldorf
Klaus Seifried, Leiter Schulpsychologisches Beratungszentrum, Berlin

Anhand von Fallbeispielen werden konkrete schulpsychologische Interventionen, Arbeitsmethoden und Organisationsformen exemplarisch vorgestellt und diskutiert.

[WS-026] Room 32
Förderung von hochbegabten Schülerinnen und Schülern in Deutschland
Elke Gemeinhardt, Universität Erfurt

Wie dies in Deutschland durch verschiedene Initiativen der einzelnen Bundesländer und in privaten Trägerschaften umgesetzt wird, ist Thema dieses Beitrages. Nach der Vorstellung der Förderansätze für Hochbegabte in Deutschland wird Zeit für einen Austausch und eine Diskussion sein.
Heißhunger-Attacken (BED) stellen eine klinisch auffällige Essstörung dar, die dadurch gekennzeichnet ist, dass wiederkehrende Heißhunger-Attacken erlebt werden, ohne dass ein regelmäßiges, unangemessenes Kompensationsverhalten zur Vermeidung von Gewichtszunahme vorliegt. Auf der Grundlage evidenzbasieter Erfahrungen beschreibt dieser Workshop diagnostische und therapeutische Strategien bei der Behandlung übergewichtiger Patienten mit BED. Es werden auf der Basis klarer Fallbeispiele und Übungen für jede therapeutische Phase verwertbare klinische Maßnahmen für die Behandlung dieser Störung aufgezeigt.

Dieser Workshop wird auf einen interdisziplinären Ansatz über die Prinzipien menschlichen Glücks fokussieren. Verschiedene Modelle der “Ver-Unglückung” werden diskutiert und die Wege, die das Glücksbegehren nimmt (und in die es kanalisiert wird) werden erforscht. Als eine der entscheidenden Etappen beim Verlust des Glücks werden wir einen intensiven Blick auf Angst werfen, besonders die Angst des Neugeborenen, wenn es alleine gelassen wird.

[WS-031] Room 37
Virtuell-reale Expositionstherapie VRET: Theorie, Wirksamkeit und praktische Anwendung
Andreas Mühlberger, M. Müller, Paul Pauli, Universität Würzburg

[WS-032] Room 38
Stressresilienz durch metaloges Kreativ-Coaching
Wolf-Ulrich Scholz, J. W. Goethe-Universität und freie Praxis, Frankfurt am Main

Im Workshop eingesetzte Methoden umfassen Kurzreferate anhand von Arbeitsblättern, Coachingdemonstrationen, Rollenspiele in Klein- gruppen, sowie Übungen, die Achtsamkeit, Bewegung und Entspannung verbinden.

[WS-033] Room 39
Krisenintervention in der Schule
Roland Storath, Staatliche Schulberatungsstelle für Mittelfranken, Nürnberg
Ina Donath, Bildungsagentur Sachsen, Dresden

[WS-034] Room 40
Freiberufliche psychologische Tätigkeit im Spannungsfeld von Regulierung und Deregulierung
Attila Szabó, Hamburg

ON-SITE INTERACTIVE EXHIBITION “PSYCHOLOGY IN BERLIN AND POTSDAM”

A permanent exhibition area devoted to “Psychology in Berlin and Potsdam” will feature the following psychology institutions:
- Humboldt-Universität Berlin
- Freie Universität Berlin
- Technische Universität Berlin
- Universität Potsdam
- Max Planck Institute for Human Development

The exhibition area will be subdivided in thematic sections presenting collaborations between the five institutions in various fields. In addition to these demonstrations, there will be computer terminals giving access to various online projects and tests. The exhibition area will also serve as a starting point and reservation office for scientific visits in and around Berlin. Mobile research labs will be featured in the open air section of the congress venue.

OFF-SITE SCIENTIFIC VISITS

ICP 2008 will take advantage of the rich academic infrastructure in and around Berlin. We will be able to offer a wide range of scientific visits to institutes and research labs. Example visits include:

Psychology and Sanssouci – A trip to Potsdam

Reinhold Kliegl will offer a tour of his Experimental Psychology Lab featuring state-of-the-art eye tracking facilities. Günter Esser will prepare a visit to the Academy of Psychotherapy and Intervention Research. The bus for both tours will leave from the ICC Berlin on Wednesday, 23 July at 09.00 h. Each group is limited to 20 participants. The scientific visits will be combined with a trip to Sanssouci Castle and other sights of Potsdam. Participants will have to pay a fee to cover for the transportation to Potsdam. The fee will be around EUR 10 and can be paid on the bus.

Visit of the Charité

Guided tours of the Charité will be offered during the congress. The tours feature clinical-psychological projects related to psychiatry, psychosomatics, and psychotherapy of childhood and youth (Tuesday, 22 July, afternoon) and of adulthood (Thursday, 24 July, afternoon). On both afternoons, four time slots for the respective visits will be available. On Tuesday afternoon, the group size is limited to 8 persons, on Thursday afternoon a maximum of 12 persons can be accepted.

Freie Universität

Norman Foster’s beautiful new Languages and Literature Library and the Neurocognitive Labs featuring pupillometric, electrodermal and electrophysiological techniques for investigating mental processes.

PSYCHOLOGY-RELATED TOURS

Beyond the regular sightseeing program (see pages 417/418 for details), we offer a number of psychology related activities and opportunities to experience the city of Berlin. We arranged for three psychology-related tours.

Please register for all tours and visits at the exhibition booth „Psychology in Berlin and Potsdam“.

History of Psychology in Berlin Tour
Tuesday, 22 July, afternoon: This tour will lead to some inner-city places that have been important in the history of our discipline in Berlin.

The Berlin Wall Tour
Wednesday, 23 July, afternoon: This tour includes a visit of the Berlin Wall documentation center at Bernauer Strasse plus discussion with psychologists and social scientists who have been working on an on-line participatory dialog to plan the memorial for the Wall (EUR 6 incl. guided tour).

Gay and Lesbian Berlin Tour
Thursday, 24 July, afternoon: The city has a vivid gay and lesbian community. There will be an opportunity to take part in a guided tour to the Gay Museum (EUR 9) and to meet psychologists working for a gay and lesbian youth counseling service (EUR 3 coffee and cake).

For all of the tours a ticket for public transport is needed. This can be purchased in every S-/U-Bahn station in Berlin.
Several administrative meetings will take place during ICP 2008. Please note that attendance is by invitation only.

ASSOCIATION OF GERMAN PROFESSIONAL PSYCHOLOGISTS (BDP)

Mitgliederversammlung der Sektion Freiberufler
Sunday, 20 July 2008
19.00 – 22.00 h, Room 42

Berliner Abend der LG Berlin-Brandenburg

Proceedings
The International Congress of Psychology is a unique gathering of international psychologists from all disciplines within psychology. As such, the published proceedings of the congress provide a comprehensive up-to-date overview of the developments within and challenges facing every area of psychology.
The International Union of Psychological Science has agreed with Psychology Press that the contributions by the Invited Speakers at the international congress, including the Presidential Address, and the Invited Addresses will be published as soon as possible after the congress has taken place.

The invited papers will be published in two volumes, broadly collected by subject:
- Volume 1 will contain papers on cognitive and neuropsychological issues.
- Volume 2 will contain papers on personality, developmental, social, and cultural issues.

Peter A. Frensch assisted by an editorial board representing the Scientific Program Committee of the congress will edit the volumes.

The volumes are due to be published six to twelve months after the congress. After the congress each volume will be priced at EUR 98, however either or both volumes may be pre-ordered at a 50% discount – EUR 49 per volume. This price includes postage and packing. The proceedings order form can be downloaded from the congress website www.icp2008.org.

**CONGRESS INFORMATION SYSTEM**

**CO CONGRESS ONLINE®**

For the XXIX International Congress of Psychology, the web based Congress Information System CO CONGRESS ONLINE® has been installed: www.icp2008.org.

The delegates can set up and print out their personal congress program schedule. CO CONGRESS ONLINE® provides information on:
- Updated scientific program
- Program by day
- Program by formats with accepted abstracts
- List of participants (who is who)
- List of exhibitors and sponsors
- General congress information
- Private mailbox

**SPEAKERS CENTER**

The speakers center is located at the end of the entrance hall of the ICC Berlin. Speakers are asked to hand in their CD-ROM or USB stick, containing the presentation (IBM format or compatible, no multisession) preferably one day before their presentation but at the latest 3 hours prior to the presentation.

The presentation will be transferred to the central congress server and will be available afterwards on a special congress notebook in the hall of the presentation. Due to time and technical reasons we kindly ask the speakers not to use their own notebook.

Videos (VHS or DVD) need to be handed in at the speakers center preferably one day before the presentation but at the latest 3 hours prior to the presentation.

In the speakers center there are several PC working stations where speakers can also work on their PC charts in a quiet area. Technical staff will be glad to assist.

CITY SIGHTSEEING TOUR OF BERLIN
Sunday, 20 July 2008, 14.00 – 17.00 h
Historic, futuristic, ever-changing – on this tour you will discover the most beautiful sites of the bustling metropolis: Kurfürstendamm and Potsdamer Platz, the State Opera on the boulevard Unter den Linden, the Reichstag building, Charlottenburg Palace and remnants of the famous “Berlin Wall”.
Price per person: EUR 25

For registered accompanying persons one City Sightseeing Tour of Berlin is included in the registration fee. Please note that advance reservation is required.

JEWISH BERLIN
Monday, 21 July 2008, 09.00 – 13.00 h
By bus you will be taken to “Spandauer Vorstadt”, an area of central Berlin dominated by the golden dome of the New Synagogue. Your guide will take you on a walking tour of this quarter which has become one of the focal points of Jewish life in Berlin. Afterwards the bus will take you to one of the most fascinating museums in Berlin, in the trendy district of Kreuzberg – the Jewish Museum. The building is a spectacular highlight of modern architecture in Berlin and was designed by the famous architect Daniel Libeskind. The museum provides an interesting insight into the history of the Jewish people.
Price per person: EUR 38

COMBINED BUS / BOAT TOUR OF BERLIN
Monday, 21 July 2008, 14.00 – 17.00 h
Discover Berlin’s city center from a different, intriguing perspective! By bus you will be taken on a little tour on the way to the Spree River pier where you will board a sightseeing boat. On the way to the historical heart of the city you will pass such famous sights as the Reichstag, the Nikolai Quarter, the Berlin Cathedral and Museum Island. At the end of the 90-minute boat tour the bus will pick you up and take you back to the ICC Berlin.
Price per person: EUR 38

FULL DAY EXCURSION TO POTSDAM
Tuesday, 22 July 2008, 09.00 – 17.00 h
See for yourself what Potsdam, one of Germany’s most beautiful cities, is all about. Flanking Berlin to the southwest, it reflects best the brilliance of Prussian history in many different periods. The renowned gardens of Sanssouci are an international attraction. Following a guided tour of the magnificent parks, you will visit one of the Sanssouci palaces, built by Frederick the Great. After lunch Cecilienhof Palace will be visited, built between 1913 and 1917 in the style of an English Country Manor for the family of the Crown Prince. Here the Potsdam Agreement was signed in 1945 which transferred the chief authority in Germany to the American, Russian, British and French military commanders in their respective zones of occupation and to a four-power Allied Control Council for matters regarding the whole of Germany.
Price per person: EUR 95 incl. lunch

HALF DAY EXCURSION TO POTSDAM
Wednesday, 23 July 2008, 09.00 – 14.00 h
See for yourself what Potsdam, one of Germany’s most beautiful cities, is all about. Flanking Berlin to the southwest, it reflects best the brilliance of Prussian history in many different periods. The renowned gardens of Sanssouci are an international attraction. Following a guided tour of the magnificent parks, you will visit one of the Sanssouci palaces, built by Frederick the Great. Your guide will then take you on a city tour that includes the Dutch and Russian quarters and Cecilienhof Palace where the Potsdam Agreement was signed in 1945.
Price per person: EUR 49
VISIT TO THE BAUHAUS ARCHIVE  
**Wednesday, 23 July 2008, 14.30 – 17.30 h**  
Enrich your stay in Berlin with a visit to the Bauhaus Archive/Museum of Design! It is the most complete existing collection focused on the history of the Bauhaus (1919 – 1933), the most important school of architecture, design and art of the 20th century. The collection is housed in a building drafted by Walter Gropius, the founder of the school.  
Price per person: **EUR 31**

CONTROVERSIAL BERLIN  
**Thursday, 24 July 2008, 09.00 – 13.00 h**  
What comes to mind first when you think of Berlin? Most people associate the city with its cold war past and its “island” status and find that part of Berlin’s history the most intriguing one. On this tour your guide will take you back in time and show you the most famous sites, such as the museum at Checkpoint Charlie, the famous border crossing where in 1961 the world feared a third world war when American and Sowjet tanks stood facing each other. Even though today it is hard even to tell where the wall used to run, a lot of the aftermath of Berlin’s separation is still noticeable.  
Price per person: **EUR 36**

DAY EXCURSION TO DRESDEN  
**Friday, 25 July 2008, 08.00 – 19.00 h**  
Just a 3 hour drive from Berlin, Dresden, also known as “Elb-Florence” because of its many museums, art treasures and its architectural beauty, is located. Upon arrival in Dresden, your guide will take you on a walking tour of the city center and show you such famous sites as the Church of Our Lady, the Zwinger, the Residence Palace and the Semper Opera. You will visit the Green Vault which is considered one of the most important and largest treasure chamber museums in the world and located in the Dresden Royal Palace. Bus transfer back to Berlin in the late afternoon.  
Price per person: **EUR 100 incl. lunch**
